

## Memorandum of Understanding

### “The Norwalk Agreement”

At their joint meeting in Norwalk, Connecticut, USA on September 18, 2002, the Financial Accounting Standards Board (FASB) and the International Accounting Standards Board (IASB) each acknowledged their commitment to the development of high-quality, compatible accounting standards that could be used for both domestic and cross-border financial reporting. At that meeting, both the FASB and IASB pledged to use their best efforts to (a) make their existing financial reporting standards fully compatible as soon as is practicable and (b) to coordinate their future work programs to ensure that once achieved, compatibility is maintained.

To achieve compatibility, the FASB and IASB (together, the “Boards”) agree, as a matter of high priority, to:

- a) undertake a short-term project aimed at removing a variety of individual differences between U.S. GAAP and International Financial Reporting Standards (IFRSs, which include International Accounting Standards, IASs);
- b) remove other differences between IFRSs and U.S. GAAP that will remain at January 1, 2005, through coordination of their future work programs; that is, through the mutual undertaking of discrete, substantial projects which both Boards would address concurrently;
- c) continue progress on the joint projects that they are currently undertaking; and,
- d) encourage their respective interpretative bodies to coordinate their activities.

The Boards agree to commit the necessary resources to complete such a major undertaking.

The Boards agree to quickly commence deliberating differences identified for resolution in the short-term project with the objective of achieving compatibility by identifying common, high-quality solutions. Both Boards also agree to use their best efforts to issue an exposure draft of proposed changes to U.S. GAAP or IFRSs that reflect common solutions to some, and perhaps all, of the differences identified for inclusion in the short-term project during 2003.

As part of the process, the IASB will actively consult with and seek the support of other national standard setters and will present proposals to standard setters with an official liaison relationship with the IASB, as soon as is practical.

The Boards note that the intended implementation of IASB's IFRSs in several jurisdictions on or before January 1, 2005 require that attention be paid to the timing of the effective dates of new or amended reporting requirements. The Boards' proposed strategies will be implemented with that timing in mind.
