The IFRS for SMEs

2

Good Financial Reporting Made Simple.

- 230 pages
- Simplified IFRSs, but built on an IFRS foundation
- Completely stand-alone
- Designed specifically for SMEs
- Internationally recognised
- Final standard issued 9 July 2009

Tailored for the needs of SMEs

3

Users of **SME** financial statements:

- Lenders, vendors, credit rating agencies, customers, family investors
- Short-term cash flows, liquidity, solvency

Users of **listed** company financial statements:

- Invest in equity shares or long-term debt
- Much longer time horizon
- Forecast earnings, share prices, value of the entity as a whole

Who is eligible to use it?

4

Any entity that does not have public accountability...

- securities not publicly traded
- not a financial institution

... and is required or chooses to produce General Purpose Financial Statements (GPFS)

- GPFS present fairly financial position, results of operations, and cash flows

Who is the Standard aimed at?

5

Millions of companies (over 99%)!

- The 52 largest stock exchanges in the world together have about **45,000** listed companies
- Europe has roughly **28 million** private sector enterprises (SMEs)
- USA has about **25 million**
- UK: **4.7 million** (99.6% under 100 employees)
- Brazil: **6 million**

Who is the Standard aimed at?

6

- Dubai: over **100,000** registered companies
- Abu Dhabi: over **50,000** registered companies

“SMEs are backbone of Dubai’s economy. Being an important player in all value chains, SMEs represent 95% of all firms registered in UAE.”

The public interest

7

Which entities must produce GPFS is a public interest issue

- Decided by parliaments and regulators, not by IASB
- Why? There is a public benefit in good financial information about companies

The public interest

8

In most countries all or many SMEs are required by law to prepare GPFS

- Europe: 8 million companies have a 'statutory audit' obligation
- Hong Kong – Every company including micros (900,000): GPFS + Audit
- Brazil – 6,000,000 SMEs required
- Etc etc for nearly all countries, but...

The public interest

9

But... in US, Australia, and a few others, only publicly traded companies and a limited number of others must prepare GPFS

- Each jurisdiction must decide for itself what is in the public interest

Support for IFRS for SMEs

10

World Bank press release July 2009:

“The IFRS for SMEs provides a valuable financial reporting reference framework for smaller entities that is more responsive to the size and ownership of their operations, and should help improve their access to finance. In countries that have already adopted IFRS as the national accounting standard, the simplifications introduced by the SME standard will provide much needed relief.”

IFAC press release July 2009:

“This global accounting standard represents a very significant step on the path to global convergence of financial reporting practices by SMEs. It will contribute to **enhancing the quality and comparability of SME financial statements** around the world and **assist SMEs in gaining access to finance**. The beneficiaries will be not only SMEs, but also their customers, clients, and all other users of SME financial statements.”

1. Some topics in IFRSs omitted if irrelevant to private entities
2. Where IFRSs have options, include only simpler option
3. Recognition and measurement simplifications
4. Reduced disclosures
5. Simplified drafting

Examples of Omitted Topics

13

- Segment reporting
- Interim reporting
- Earnings per share
- Insurance
- Assets held for sale

Examples of Omitted Complex Options

14

- Financial instruments options including:
 - Available for sale option
 - Held to maturity option
 - Fair value option
 - Embedded derivatives
- Revaluation of PP&E and intangibles
- Free choice on investment property
- Various options for government grants

Recognition & Measurement Simplifications

15

- Financial instruments:
 - Two classifications, not four
 - Drop “continuing involvement approach” for derecognition
 - Much simplified hedge accounting
- Goodwill amortisation
- Goodwill impairment – indicator approach
- Expense all R&D
- Cost method for associates and JVs

Recognition & Measurement Simplifications

16

- Much less fair value for agriculture
- Expense all borrowing costs
- Defined benefit plans:
 - No corridor or deferrals
 - Simplified calculation of obligation
- First-time adoption: Less prior data
- Share-based payment – can use directors' judgement in estimating value

Disclosure simplifications

17

Big reduction in disclosures:

- Full IFRSs – more than **3,000** items in the disclosure checklist
- IFRS for SMEs – roughly **300** disclosures

Financial statement presentation

18

- **Fair presentation:** presumed to result if *IFRS for SMEs* is followed (maybe need for supplemental disclosures)
- **Full compliance:** State compliance with *IFRS for SMEs* only if the financial statements comply in full
- **Comparatives:** At least one year comparative financial statements and note data

- **Complete set of financial statements:**
 - Statement of financial position
 - Either single statement of comprehensive income, or two statements: Income statement and statement of comprehensive income
 - Statement of changes in equity
 - Statement of cash flows
 - Notes

- **Can omit statement of comprehensive income and just do a basic income statement if SME has no items of OCI**
 - There are only 3 items of OCI in IFRS for SMEs and few SMEs will have any

- **Can omit statement of changes in equity and just do a combined statement of income statement and retained earnings if there are no owner investments or withdrawals other than dividends**

Completely stand-alone

- The only 'fallback' option to full IFRSs is the option to use IAS 39 instead of the financial instruments sections of IFRS for SMEs

Why would an SME want to adopt It?

23

- **Improved access to capital**
 - This is the #1 issue for SMEs
- **Improved comparability**
- **Improved quality of reporting** as compared to existing national GAAP
 - World Bank ROSC reports on 100 countries
 - <http://www.worldbank.org/ifa/rosc.html>
- **Reduced burden** where full IFRSs or full national GAAP are now required for SMEs

Copyright © 2012 IFRS Foundation | 30 Cannon Street | London EC4M 6XH UK | www.ifrs.org

Why would an SME want to adopt It?

24

- **Other benefits:**
 - Lots of implementation help from the IASB
 - Examples later
 - Stability: Update only once every three years (if needed)
 - Textbooks available
 - Software available
 - Commercial training programmes

Copyright © 2012 IFRS Foundation | 30 Cannon Street | London EC4M 6XH UK | www.ifrs.org

What would the audit report say?

25

- **Something like:**

“Fairly presents financial position, results of operations, and cash flows in conformity with the International Financial Reporting Standards for Small and Medium-sized Entities”

Jurisdiction plans for adoption

26

Today (September 2012), to the best of our knowledge:

In Conclusion

46

The IFRS for SMEs will result in:

- Better quality reporting
- Tailored for the capabilities of small companies
- Tailored for the needs of lenders and creditors
- Understandability across borders

If capital providers understand and have confidence in the financial figures, an SME's ability to obtain the capital it needs improves. Ultimately, the economy in which it operates improves.
