This Profile provides information about the application of IFRS® Accounting Standards (Standards) in Cyprus. The Standards are developed and issued in the public interest by the International Accounting Standards Board (IASB). The IASB is the standard-setting body of the IFRS Foundation (Foundation), an independent, private sector, not-for-profit organisation.

The Foundation has prepared this Profile based on information from various sources. The starting point was the answers provided by standard-setting and other bodies in response to surveys the Foundation conducted on the application of the Standards around the world. The Foundation drafted the profile and invited the respondents to the survey. The Foundation also invited others (including regulators and international audit firms) to review the drafts. Their comments are reflected in this Profile.

The purpose of the Foundation’s Jurisdictional Profiles is to illustrate only the extent of implementation of the Standards across the globe. The Profiles do not reflect the intellectual property licensing status of the Standards within any given jurisdiction. The Standards are protected by copyright and are subject to licensing arrangements agreed upon within their jurisdiction. For further information, please contact permissions@ifrs.org.

TRANSLATION OF IFRS ACCOUNTING STANDARDS

Are IFRS Accounting Standards translated into the local language?	Yes. The European Union has 24 official and working languages. They are: Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovene, Spanish and Swedish. Before they are published in the <i>Official Journal of the European Union</i> , and
---	---

therefore become binding under EU law, individual IFRS Standards must be translated into all of those languages (other than English and Irish).

If they are translated, what is the translation process? In particular, does this process ensure an ongoing translation of the latest updates to IFRS Accounting Standards?

Pursuant to a copyright waiver agreement with the Directorate-General for Translation of the European Commission, the Commission takes care of the translation into the official languages according to their own translation process. The translation only covers the standards and mandatory guidance, which is then published in the *Official Journal of the European Union*.

In addition, some countries (usually the standard setter or institute) have a translation contract with the IFRS Foundation to produce an 'official translation' for publication of a bound volume of IFRS Standards (usually the 'Red Book') and publication, in some cases, of individual standards and exposure drafts.
