This Profile provides information about the application of IFRS® Accounting Standards (Standards) in Dominican Republic. The Standards are developed and issued in the public interest by the International Accounting Standards Board (IASB). The IASB is the standard-setting body of the IFRS Foundation (Foundation), an independent, private sector, not-for-profit organisation.

The Foundation has prepared this Profile based on information from various sources. The starting point was the answers provided by standard-setting and other bodies in response to surveys the Foundation conducted on the application of the Standards around the world. The Foundation drafted the profile and invited the respondents to the survey. The Foundation also invited others (including regulators and international audit firms) to review the drafts. Their comments are reflected in this Profile.

The purpose of the Foundation's Jurisdictional Profiles is to illustrate only the extent of implementation of the Standards across the globe. The Profiles do not reflect the intellectual property licensing status of the Standards within any given jurisdiction. The Standards are protected by copyright and are subject to licensing arrangements agreed upon within their jurisdiction. ## COMMITMENT TO GLOBAL FINANCIAL REPORTING STANDARDS

Has the jurisdiction made a public commitment in support of moving towards a single set of high quality global accounting standards?

Yes.

Article 31 of the General Law of Corporations and Limited Liability Companies Singles (Law No. 479–08) as amended by Law No. 31–11 provides that financial statements should be prepared in accordance with the principles and / or generally accepted accounting standards nationally and internationally.

Further, both the ICPARD and the Superintendencia de Valores have required the use of IFRS Standards and the IFRS for SMEs Standard .

See Resolución 001 Acta 2010-004 Adopción e Implementación de las NIIFs:

Has the jurisdiction made a public commitment towards IFRS Accounting Standards as that single set of high quality global accounting standards?

Yes.

See above.

What is the jurisdiction’s status of adoption?

The Dominican Republic has adopted IFRS Standards and the IFRS for SMEs Standard.

Additional comments provided on the adoption status?

In 2010, the ICPARD issued two resolutions adopting IFRS Standard, as follows:

- Resolución 001 Acta 2010-004 *Adopción e Implementación de las NIIFs*. That resolution established the mandatory use of full IFRS Standards for all companies whose shares trade on the Bolsa de Valores de la República Dominicana (Stock Market of the Dominican Republic, or BVRD) starting in 2014. The resolution provided for a gradual implementation of full IFRS Standards, requiring some standards as mandatory starting in 2010 while others have been phased in prior to 2014.
- Resolución 002 Acta 2010-004 *Adopción e Implementación NIIF Para Pymes*. That resolution established the mandatory use of the IFRS for SMEs Standard for all unlisted companies that are classified as medium-sized or large under Law 488-08 starting in 2014. The resolution provided for a gradual implementation of those sections of the IFRS for SMEs Standard, requiring some of the 22 sections as mandatory as from 2010 while others have been phased in prior to 2014.

In addition, those resolutions allowed companies using US GAAP to continue to do so up to 2014 when they would need to use IFRS Standards.

Although the principle of adopting IFRS Standards and the IFRS for SMEs Standard in those resolutions has not changed, several subsequent resolutions of the ICPARD and a Circular issued by the Superintendency of Securities (Superintendencia de Valores) have resulted in changes to the 2014 dates in the above resolutions, as follows:

- In 2011, Resolución 1 *Normas de Contabilidad No. 1*, the ICPARD brought forward the mandatory application dates to 1 January 2012.
- After that resolution was issued the ICPARD gave two 12-month extensions to companies that were not able to comply with the 2012 deadline. Therefore, the ICPARD deadlines are for fiscal years starting 1 January 2014. The ICPARD also decided that companies using US GAAP could continue to do so without time limit. These extensions do not apply to companies registered with the Superintendency of Securities.
- In Circular C-SIV-2011-12-MV, the Superintendency of Securities (Superintendencia de Valores) requires that companies registered with the Superintendency adopt IFRS Standards effective in 2013 and does not allow US GAAP.

Therefore, the status of adoption of IFRS and the IFRS for SMEs is as follows:

- Companies registered with the Superintendency of Securities were required to use full IFRS Standards starting in 2013. They could no longer use US GAAP starting in 2013.
- Unlisted companies that are medium-sized or large as defined in Law 488-08 were required to start using the IFRS for SMEs Standard in full starting in 2014. For 2013, they are permitted to use those 22 sections of the IFRS for SMEs Standard that were mandated by Resolution 002 Acta 2010-004 *Adopción e Implementación NIIF Para Pymes* if they are unable to comply in full.

Unlisted companies that have been using US GAAP may continue to do so without time limit.

If the jurisdiction has NOT made a public statement supporting the move towards a single set of accounting standards and/or towards IFRS Accounting Standards as that set of standards, explain the jurisdiction's general position towards the adoption of IFRS Accounting Standards in the jurisdiction.

Not applicable.
