

Implementation Advisors Programme –

Call for Expressions of Interest

The IFRS Foundation invites expressions of interest from suitably qualified individuals to participate in an Implementation Advisors Programme. The Programme is designed to equip participants with knowledge to support interested jurisdictions considering the adoption or other use of the IFRS Sustainability Disclosure Standards (ISSB Standards). The Implementation Advisors Programme is part of the IFRS Foundation's Regulatory Implementation Programme and will be delivered by IFRS Foundation staff.

Objectives

As jurisdictions consider the adoption or other use of ISSB Standards, there is a growing demand for advisors to support authorities in their planning and processes aiming to introduce ISSB Standards into regulatory frameworks. The Programme is designed to:

- enhance independent advisors' familiarity with the ISSB Standards and the IFRS Foundation's tools and materials that are available to support regulators; and
- enable implementation partners and authorities to identify advisors with relevant experience and understanding of ISSB-related adoption considerations.

The Programme is intended for independent advisors who are, or may be, engaged by implementation partners or public-interest institutions (including multilateral development banks, development finance institutions or national development agencies) to support jurisdictions in their adoption or other use of ISSB Standards.

The curriculum will focus on developing a sound understanding of the ISSB Standards, the IFRS Foundation's [Inaugural Jurisdictional Guide for the adoption or other use of ISSB Standards](#), and related [regulatory tools](#) to support authorities considering adoption approaches.

Participants who successfully complete the Programme will receive a certificate of completion. Participants will also be required to complete the FSA® Credential.

Expectations, estimated time commitment and costs

The Implementation Advisors Programme will include mandatory participation in a virtual launch session in early March, a 3-day in-person workshop in London (25-27 March 2026), followed by four interactive virtual sessions.

The interactive virtual sessions will take place once a month between April 2026-July 2026. Each session will commence at 13:00 CET and will be no longer than 2 hours. Participants can expect to spend 1-2 hours engaging with materials to prepare for the sessions and 3-4 hours for each post-session assessment/applied case study assignment. The tentative dates for the sessions are:

- 11 March (Programme launch)
- 25-27 March (Workshop in London, in-person attendance mandatory)
- 23 April (Jurisdictional Rationales)
- 21 May (Jurisdictional Readiness)
- 16 June (Developing Roadmaps)
- 30 July (Programme Conclusion)

Participation in all sessions is mandatory, including in-person attendance at the London Workshop. Participants will be responsible for their own travel costs. Please note that there is no compensation or reimbursement of costs available.

Participants may complete the FSA ® Credential requirement on a self-paced basis. For more information on the FSA® Credential and associated costs, please see [IFRS - FSA Credential](#).

Submitting an Expression of Interest

Applicants are expected to have relevant experience in areas such as financial

reporting, sustainability-related disclosures, regulatory policy, or implementation support, and to demonstrate familiarity with, or a strong interest in, ISSB Standards and their use within regulatory frameworks.

The Programme is cohort-based and requires active participation across its duration. The inaugural cohort will be limited to approximately 30 participants. Selection will consider relevant experience, number of applicants from the same institution, organization or firm and geographic balance.

Interested individuals are invited to submit:

1. A curriculum vitae (CV) outlining relevant professional experience; and
2. A brief statement of interest (250-300 words max) describing:
 - the applicant's background and experience relevant to ISSB Standards and sustainability-related financial reporting;
 - any experience supporting jurisdictions, regulators or public authorities in adoption, implementation or related regulatory processes; and
 - the applicant's interest in, and motivation for, participating in the Implementation Advisors Programme.

Materials should be submitted via email to regulatoryaffairs@ifrs.org by **Friday 20 February 2026**. Submissions will be considered as they are received. The IFRS Foundation will retain your data for 270 days after the conclusion of the formation of the first cohort
