

DRAFT IASB Work Plan

projected timetable as at 31 December 2008

The timetable shows the current best estimate of document publication dates. The effective date of amendments and new standards is usually 6-18 months after publication date, although in setting an effective date the Board considers all relevant factors. In appropriate circumstances, early adoption of new standards will be allowed.

The work plan anticipates the completion of several projects in 2010 and 2011. The Board will consider staggering effective dates of standards to help entities that apply IFRSs undertake an orderly transition to any new requirements.

The Board undertakes this work using its established due process, including consultation with interested parties. The timetable for completion is subject to change depending on input received throughout a project's development.

Footnotes

1. These projects are part of the Memorandum of Understanding that sets out the milestones that the FASB and the IASB have agreed to achieve in order to demonstrate standard-setting convergence.
2. These projects are being undertaken with the FASB. Even though *joint ventures* and *post-employment benefits* are not being undertaken with the FASB, in each case the IASB has committed to improve the related IFRSs.
3. Work on this project has been suspended.
4. The project on *liabilities* deals with proposed amendments to IAS 37.

Footnotes

- The IASB and the FASB will amend sections of their conceptual frameworks as they complete individual phases of the project.
- In December 2007 the IASB decided not to add this project to its active agenda. National standard setters are carrying out research for a possible future project. The Australian Accounting Standards Board has published a discussion paper *Initial Accounting for Internally Generated Intangible Assets*.
