Topic **Work in progress**

Introduction

Objective of this paper

1. The objective of this paper is to update the IFRIC on the current status of issues and the progress made by the staff.
2. Appendix A to this paper provides a summary of all issues recently completed, currently being researched and newly submitted.

Question
Does the IFRIC have any questions or comments on the IFRIC Issues Update List?

This paper has been prepared by the technical staff of the IASCF for discussion at a public meeting of the IFRIC.

The views expressed in this paper are those of the staff preparing the paper. They do not purport to represent the views of any individual members of the IFRIC or the IASB. Comments made in relation to the application of an IFRS do not purport to be acceptable or unacceptable application of that IFRS—only the IFRIC or the IASB can make such a determination.

Decisions made by the IFRIC are reported in *IFRIC Update*.

Interpretations are published only after the IFRIC and the Board have each completed their full due process, including appropriate public consultation and formal voting procedures. The approval of an Interpretation by the Board is reported in *IASB Update*.

IFRIC Issues being considered by the IFRIC

Reference number	Topic	Brief description	Progress
IAS 38-6	Compliance costs for REACH (request received May 2008)	The issue is how costs incurred to comply with the requirements of the European Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) should be treated.	<p>At its July 2008 meeting the IFRIC tentatively concluded that it should add the issue to its agenda. In addition, the IFRIC agreed with the staff's proposal that it would be helpful to work with other interpretive bodies whose entities might be affected by the Regulation or similar requirements.</p> <p>The staff confirmed that other interpretive bodies are interested in participating in or monitoring the IFRIC's work on this issue. The staff presented recommendations on whether the IFRIC should confirm its tentative decision to add this issue to its agenda at the November 2008 meeting. The IFRIC requested more research on the rights a participant obtains. At the March 2009 meeting the IFRIC redeliberated the issues and requested more research on the characteristics of registration or licensing costs that produce future economic benefits and to determine whether and in what circumstances such costs are capitalised in practice.</p> <p>At the May 2009 IFRIC meeting the staff presented the results of its research and a final recommendation. The IFRIC tentatively decided not to add the issue to its agenda. At the July 2009 meeting the IFRIC will consider comments received and decide whether to confirm that decision.</p>
