## **INFORMATION FOR OBSERVERS**

**IASCF Trustees Meeting  
London 29 March – 1 April 2010**

### **Agenda Paper 3**

---

#### **Preparing for the post-June 2011 agenda**

The completion of the projects on the IASB-FASB Memorandum of Understanding will largely clear the IASB's immediate work programme. Already planned before the Constitution Review and consistent with the new Constitutional provisions, the IASB will undertake a public consultation to develop its new work priorities. The IASB is consulting with the IFRS Advisory Council (formerly the SAC) on the development of a consultation document for public input. The IASB will publish the consultation in the second half of this year.

The IASB discussed possible topics for the post-June 2011 agenda with the Advisory Council at their February meeting. The paper for that meeting is attached. The IASB Chairman and the Advisory Council Chairman will discuss the conclusions of that meeting when the Trustees meet in London.
