Memorandum

Re: Status of funding

At the last Trustees' meeting, the Trustees agreed a number of steps to advance funding within their own countries or regions. Those efforts are progressing, but have not resulted in new commitments or a significant change in position. I am attaching a summary of the current position of financing efforts.

I am also providing a country-by-country summary of the funding received or accrued for 2009 as Appendix A. Contributions for 2009 rose to £16.6 million from £12.8 million in 2008. New funding regimes in France and Spain, combined with the appreciation of euro dollar versus sterling, are the largest factors behind the increase.
