# Why a project? What is the disclosure problem?

# Disclosure Initiative Activities

6

## Disclosure Initiative

# Principles of Disclosure (POD) project

7

## Why

- Requests for the IASB to develop presentation and disclosure principles that apply across IFRS
- A better 'disclosure framework' in IFRS will result in improved disclosures because it will help:
  - the IASB set better disclosure requirements in IFRS; and
  - entities to make better judgements about what information to disclose and how

## Output

- Discussion Paper
- Overall principles and specific issues
- Ultimate goal is to produce a disclosure Standard (IFRS) dealing with the basic structure and content of financial statements
- Redevelop parts of IAS 1 *Presentation of financial statements* and IAS 8 *Accounting policies, changes in accounting estimates and errors*
- Education guidance – communication/formatting

# POD – Discussion Paper topics

8

## Overarching principles

Roles of 'primary' financial statements and the notes

Materiality and aggregation

Communication principles  
grouping, ordering and formatting

## Specific issues

Non-IFRS information

Disclosure objectives

Consistency/comparability of disclosures

Cross-referencing

Accounting policies

Proportionality

## Wider issues

Disclosure of changes policies and estimates (IAS 8)

Implications for existing Standards

Digital reporting

## Content reflecting the Standards (trial 1)

13

- In summary, the **proposed changes** are:
  - review and approval by the IASB of updates to the Taxonomy
  - a *[Proposed] Taxonomy Update* is the primary consultation document that accompanies and is published at the same time as the Exposure Draft of final Standard
- Staff **Analysis of Comments** on IAS 7 has just started

## Common practice (trial 2)

14

- This trial incorporates **two processes**:
  - initiation of a new common practice project
  - additions or amendments to common practice content
  
- At the December 2014 ITCG call, most of you agreed that a clear definition of the scope of the IASB's involvement is needed to **minimise IASB resource impact** and to reduce risks where common practice may be perceived as **authoritative**

## Common practice (trial 2) – cont'd

15

- The IASB considers ‘peer review by a Board Member Panel’ as the optimal way to mitigate the above risks while at the same time providing the required assurance that the content of the IFRS Taxonomy is consistent with IFRSs
  - the common practice due process trial will proceed on that basis and is expected to be completed at the end of May
- Appendix 2 describes the process in more depth

## Progress to date

17

- Developing 40 jurisdictional profiles:
  - Asia-Oceania:17, Europe:17, Americas: 4 and Africa: 2
  - 30 jurisdictions indicate either using or having a concrete plan to use XBRL as well as IFRS Taxonomy
- Extent of use of XBRL varies from jurisdiction to jurisdiction
  - Solely for one purpose (eg Stock Exchange)
  - Multi-purpose information centre
  - Annual reports by listed companies are usually filed using IFRS Taxonomy; tax return and filings by SMEs are filed using locally developed taxonomy.

# Public launch

---

18

- First profiles will be released in the first week of June
- Available on website, in PDF as well as in a more interactive digital format (tentative)
- Further actions
  - Develop profiles for other jurisdictions
  - Update information of developed profiles
    - European Transparency Directive
    - Rapid development of electronic filing worldwide

# Terms and conditions

- At the **October 2014 ITCG meeting**, we told you that we are planning to:
  - review and update the existing terms and conditions for using the IFRS Taxonomy Materials and ask for explicit acceptance
- A **draft has been prepared** by the staff, and we will ask for your review prior to finalising them
- We are hoping to **publish** the new terms and conditions towards **end Q2 2015**

IFRS Taxonomy - Common practice due process - project initiation

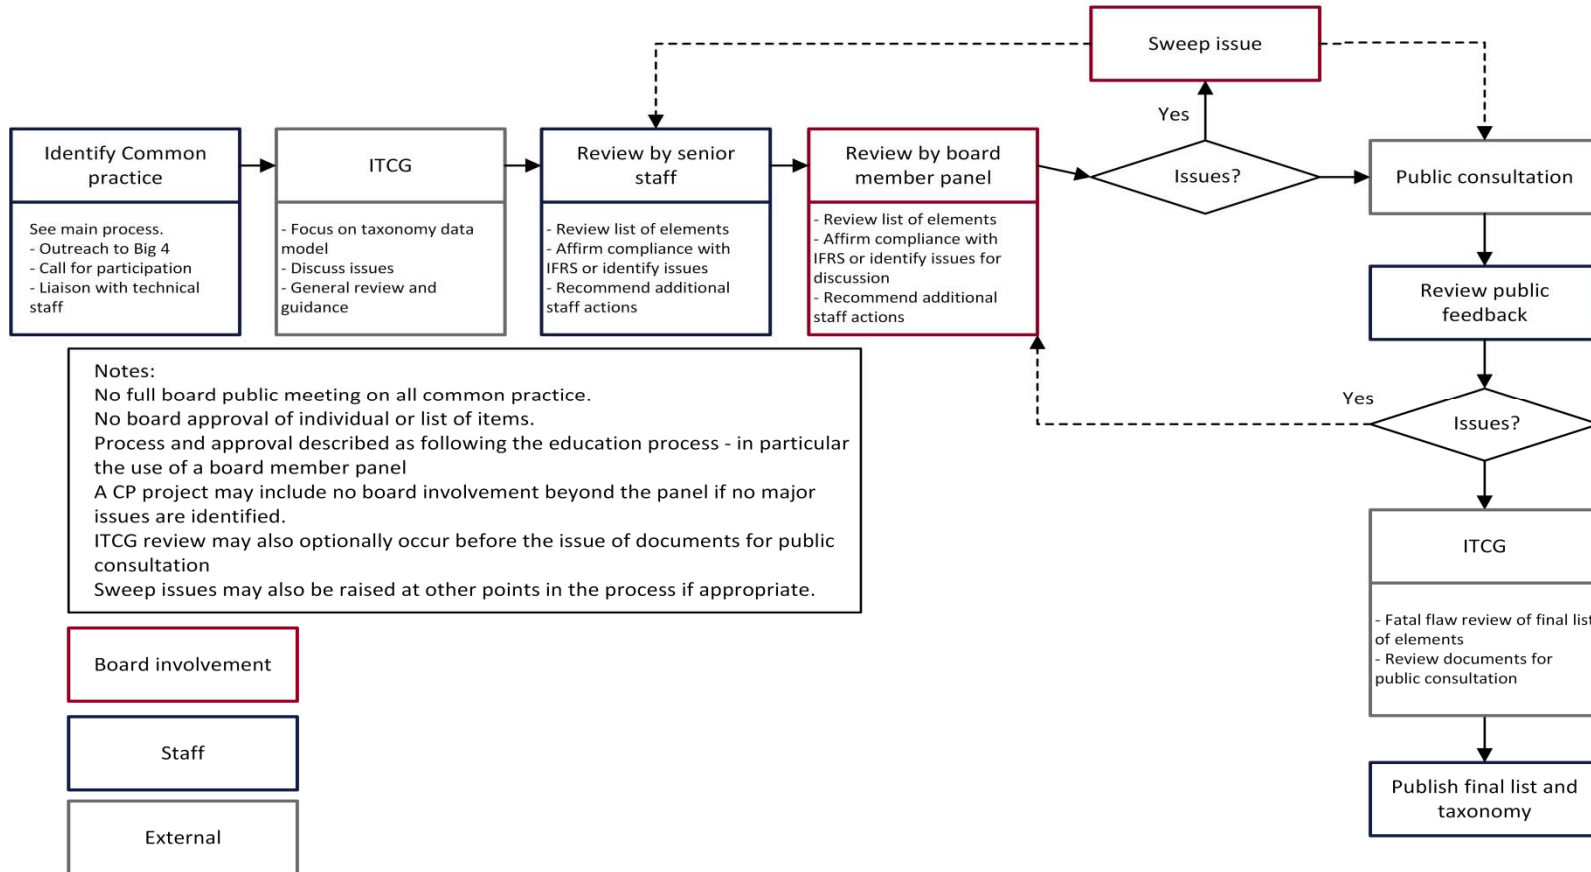

**Notes:**

- In general this is expected to be an annual process.
- Unless a particular issues is identified requiring full board attention then the proposed projects are not taken to a public board meeting.
- Once the projects are decided up on they are however taken to a public education session to allow both the board and the public to be infromed of the common practice projects (if any) for that year.
