

IFRS Taxonomy— supporting materials

Wladek Krawiec, IASB Technical Staff

Anuj Deuba, IASB Assistant Technical Staff

The views expressed in this presentation are those of the presenter, not necessarily those of the International Accounting Standards Board or the IFRS Foundation.

Aims of this session

The IFRS Foundation publishes a wide range of materials to support the IFRS Taxonomy. We would like your feedback on **whether these materials still achieve their stated objectives** and whether we could use our resources better.

Preparer's guide

Regulator's guide,
IFRS Taxonomy architecture
and Formula guide

Objective

To help preparers of financial statements to:

- understand the IFRS Taxonomy content; and
- improve the quality and consistency of the tagging.

Content

- Explains the content of the IFRS Taxonomy and its updating process, including public consultation.
- Explains how a preparer can use the IFRS Taxonomy content to tag financial information.

Background

- First released in December 2017.
- Updated periodically to respond to feedback or new developments.
- Last update released in December 2018.

Objective

To help **regulators** with the adoption and ongoing use of the IFRS Taxonomy within an electronic filing system.

Content

- **How to get started** with adoption of the IFRS Taxonomy.
- Description of the **architecture** of the IFRS Taxonomy and **XBRL technologies used** by the IFRS Foundation.*
- Available options for **how to use** the IFRS Taxonomy in a filing system.

Background

- First released **in June 2015**.
- **Updated periodically** to respond to feedback or new developments.
- Last discussed at the ITCG meeting in April 2018 when the inclusion of a number of improvements was proposed; an update is pending.

* On the overlap between the guides, see slides 13–14.

Objective

To help **software vendors implement** structures of the IFRS Taxonomy in their software.

Content

- **Content** of the IFRS Taxonomy and its updating process.
- Description of the **architecture** of the IFRS Taxonomy and XBRL technologies used by the IFRS Foundation.*
- An **overview of the modelling principles** in the IFRS Taxonomy. (see more details on slide 11 and specific questions on slide 12)

Background

- First released **in August 2008** alongside the IFRS Taxonomy 2008.
- Updated annually to reflect small changes in statistics or examples (see slide 11).

* On the overlap between the guides, see slides 13–14.

Objective

To help **software vendors** implement automatic validations (Formula) in their software.

Content

- Explains **types of the validations and provides examples** (see slides 29–31)
- Describes available assertions based on XBRL Formula, ready for implementation*

Background

- First released **in August 2012**.
- **Updated annually** to reflect minor editorial changes and (less often) technical changes in the XBRL specifications or added Formulas

* On the overlap between the guides, see slides 13–14.

All guides

- 
1. **Usefulness** of the guides
 - A. Who uses the guides? Do you use any of the guides?
 - B. Are the guides still useful?
 2. Is the **content still relevant**?
 - A. What could we do to improve the content of the guides?
 - B. Could any parts be added, removed or modified?
 3. Do you have any other comments or suggestions?

Fixed
content

Sections that **do not need annual updates**:

- Description of **modelling approaches** used in the IFRS Taxonomy.
- The **structure** of the IFRS Taxonomy, including description of:
 - type of linkbases used (eg label, reference linkbase); and
 - absolute and relative paths, explaining how to import taxonomy files into their systems.
- **Additional XBRL technologies** used by the IFRS Foundation (Versioning, Formulae, Inline XBRL).
- **Style Guide** explains creating names of the IFRS Taxonomy elements.

Changing
content

Sections that **need annual updates**:

- Changes in the **file structure** resulting from technical changes
- **Examples** illustrating modelling approaches
- **Statistics** related to various elements eg number of text elements in the IFRS Taxonomy.

Architecture guide (see slides 8 and 11)

1. Are the **fixed sections of the Architecture guide** useful in achieving the objective? Could any parts be added, removed or modified?
2. Are the sections **updated every year needed**?

Overlap between the guides

The guides include some overlapping content.
Is that overlap helpful? If not, how can it be avoided?

Supporting materials

We would like your feedback on the usefulness of the following supporting materials:

1. IFRS Taxonomy Illustrated (ITI) in PDF and HTML
2. Versioning information
3. The xIFRS
4. Tagging examples using IFRS Taxonomy
5. IFRS Taxonomy Formula linkbase

- For **general questions on the usefulness** of supporting materials, see slides 34–35.

Accessing supporting materials

The screenshot displays the IFRS Taxonomy website interface. At the top left is the IFRS logo. To the right are links for 'Sign in', a search icon, and a menu icon. Below this is a horizontal navigation bar with links: 'ABOUT US', 'AROUND THE WORLD', 'ISSUED STANDARDS', 'SUPPORTING IMPLEMENTATION', 'PROJECTS', 'NEWS AND EVENTS', and 'SERVICES'. The main content area has a dark red background. A breadcrumb trail 'Home < Issued Standards < IFRS Taxonomy' is circled in white, with a white arrow pointing to it from the right. Below the breadcrumb is the title 'IFRS Taxonomy' and a 'Follow' toggle switch. A horizontal menu below the main area contains 'ABOUT', 'ANNUAL TAXONOMIES', 'TAXONOMY UPDATES', 'GENERAL RESOURCES' (circled in red), and 'NEWS', with a red arrow pointing to it from the right. Under the 'General resources' section, there is a list of four items, each with a red plus icon: 'Browsing the IFRS Taxonomy', 'Understanding IFRS Taxonomy Updates', 'Filing with the IFRS Taxonomy', and 'Working with the IFRS Taxonomy'.

1. IFRS Taxonomy Illustrated in PDF and HTML

18

Objective

To enable the **IFRS Taxonomy** to be viewed in a human-readable format. Additionally, the **HTML version** includes **documentation and implementation labels** available via free subscription to the eIFRS service.

Main users

All IFRS Taxonomy users who do not have specialised software to view the IFRS Taxonomy.

How often is it published

Annually and **with any proposed update** to the IFRS Taxonomy.

IFRS Taxonomy Illustrated

The *IFRS Taxonomy Illustrated* (ITI) is a document published by the IFRS Foundation in both PDF and HTML that displays the IFRS Taxonomy's content. The HTML version of the *IFRS Taxonomy Illustrated* includes more information than does the PDF version, such as IFRS Taxonomy element documentation labels and additional features to assist navigation.

The ITI includes links to enable users to navigate from an IFRS Taxonomy element directly to the electronic version of IFRS Standards by clicking on the relevant element references displayed within the document.

The *IFRS Taxonomy Illustrated Guide* describes the layout of the ITI and how to navigate its content.

The screenshot shows the eIFRS website interface. At the top, there is a search bar with 'English' selected and a 'SEARCH' button. Below the search bar, there are navigation links: 'IFRS Taxonomy', 'Full IFRS ordered by Standard', '2019', and 'English'. The main content area is titled 'IFRS Taxonomy' and contains a paragraph of introductory text. Below this, there is a table with columns for 'Data type', 'References', 'Documentation Label', and 'Commentary Guidance Label'. The table is expanded to show the 'Statement of cash flows, indirect method' section. The table contains the following rows:

[Expand all] [Collapse all] Toggle column: [Data type] [References] [Documentation Label] [Commentary Guidance Label]			
Income taxes refund (paid)	IAS 7.14 f Example, IAS 7.35 Disclosure	The cash flows from income taxes paid or refunded, classified as operating activities. [Refer: Income taxes paid (refund)]	
Other inflows (outflows) of cash	IAS 7.14 Disclosure	Inflows (outflows) of cash, classified as operating activities, that the entity does not separately disclose in the same statement or note.	
Net cash flows from (used in) operating activities	IAS 7.10 Disclosure, IAS 7.50 d Disclosure	The cash flows from (used in) operating activities, which are the principal revenue-producing activities of the entity and other activities that are not investing or financing activities. [Refer: Revenue]	A positive or negative XBRL value can be entered for this element. Refer to the standard element label to determine the correct sign. Use a negative value for terms in brackets.

ITI include interactive information via hyperlinks

2. Versioning information document

21

Objective

To show changes between two versions of the IFRS Taxonomy to:

- help stakeholders comment on the proposed changes;
- help preparers to understand changes to the IFRS Taxonomy necessary for roll-forward tagging; and
- help software vendors automatically identify changes to the IFRS Taxonomy.

Main users

All IFRS Taxonomy users, including software vendors and preparers.

How often is it published

Annually and with any proposed update to the IFRS Taxonomy

3. The xIFRS

Objective

- To show IFRS Taxonomy elements embedded in an electronic version of the IFRS Standards.
- To help preparers choose appropriate elements based on the requirements in the IFRS Standards.

Main users

All IFRS Taxonomy users who do not have specialised software to view the IFRS Taxonomy.

How often is it published

Annually and with any proposed update based on the new or amended IFRS Standard.

Information to be presented in the statement of financial position

54 As a minimum, the statement of financial position shall include line items that present the following amounts:

(a) **property, plant and equipment;**

Property, plant and equipment Disclosure	X _{instant, debit}	IAS 16.73 e Disclosure	210000, 220000, 800100, 822100
--	-----------------------------	------------------------	--------------------------------

(b) **investment property;**

Investment property Disclosure	X _{instant, debit}	IAS 40.76 Disclosure, IAS 40.79 d Disclosure	210000, 220000, 800100, 825100

(c) **intangible assets;**

Goodwill Disclosure	X _{instant, debit}	IAS 36.134 a Disclosure, IAS 36.135 a Disclosure, IFRS 3.B67 d Disclosure	210000, 220000, 800100, 817000, 832410
Intangible assets other than goodwill Disclosure	X _{instant, debit}	IAS 38.118 e Disclosure	210000, 220000, 800100, 823180

IFRS Taxonomy elements are embedded in an electronic version of the IFRS Standards

4. Tagging examples using the IFRS Taxonomy

Objective

- To show how the Illustrative **Examples** from IFRS Standards **could be tagged** using elements from the IFRS Taxonomy
- To illustrate the **best tagging practice** using IFRS Taxonomy in XBRL and inline XBRL format.

Main users

All IFRS Taxonomy users, mainly preparers of financial statements that tag financial information using the IFRS Taxonomy

How often is it published

Annually and with any proposed update based on the new or amended IFRS Standard

4. Tagging examples using the IFRS Taxonomy—example

A possible presentation in the statement of profit or loss of the amounts related to insurance contracts is as follows:

	20x2
	CU
Insurance revenue	140
Insurance service expenses	(413)
Insurance service result	(273)
Investment income	-
Insurance finance expenses	(27)
Finance result	(27)
Loss	(300)

Name	ifrs-full:InsuranceRevenue
Value	140
Period	2022-01-01 to 2022-12-31
decimals	0
scale	0
unitRef	CU

Tagging is presented in Inline XBRL format

5. IFRS Taxonomy Formula linkbase

Objective

To help users to **improve the data quality** of XBRL filings prepared using IFRS Taxonomy. By **detecting and warning** about the possible errors using automated validations.

(See the next slide for the list of available validations.)

Main users

- **Preparers of financial statements** that tag financial information using the IFRS Taxonomy; and
- **regulators** extending the IFRS Taxonomy.

How often is it published

Annually to supplement the annual IFRS Taxonomy.

(Updated to reflect changes to previous version of annual IFRS Taxonomy.)

5. IFRS Taxonomy Formula—available validations

1. Positive fact validation

- Checks if appropriate elements are reported as positive values

2. Negative fact validation

- Checks if appropriate elements are reported as negative values

3. Axis aggregation validation

- Checks if sum of all members on the Axis = default (or other) member

4. Fact equivalence validation

- Checks, if line items with appropriate members = equivalent line items (when available)

5. IFRS Taxonomy Formula—available validations

5. Earnings per share validation

- Checks if per share elements = appropriate elements / share element

6. Cross-period validation*

- Checks for reconciliations if opening balance + changes in the period = closing balance

7. Technical validation

- Checks if no duplicate values has been reported for the same element

8. Percentage warning

- Check reported value is not higher than 100%

* Next slide demonstrates use of a sample cross-period validation.

Questions to ITCG members

- 
1. Which supporting materials do you find most useful? Why?*
 2. How often do you use those materials?*
 3. Are there any supporting materials that you are not using? Why?*
 4. Are you aware of any other stakeholders' views on the questions above, if any? What are they?*

- 
5. How can we improve the support we provide?
 6. Do you have any other comments or suggestions on the supporting materials?

* When answering these questions, please complete the table on the next slide.

Proposed IFRS Taxonomy Updates (PTU)

35

Objective

- To **help** constituents **to understand the proposed changes** to the IFRS Taxonomy and to provide feedback on them; and
- required by our Due Process (see next slide).

Main users

All constituents that provide feedback.

How often is it published

With any proposed update to the IFRS Taxonomy.

Content

Content, as described in the due process document:

- **Explains the reason** behind the proposed changes, for example:
 - changes to the IFRS Standards;
 - research regarding common reporting practice; or
 - improvements based on the feedback received.
- **Asks questions** regarding the proposed changes.
- **Illustrates** the effect of the **proposed changes** on the IFRS Taxonomy;
- **Describes available options** (if applicable) and explains the reason for the option proposed.
