This paper has been prepared for discussion at a public meeting of the International Accounting Standards Board (the Board). The views expressed in this paper do not represent the views of the Board or any individual member of the Board. Comments on the application of IFRS® Standards do not purport to set out acceptable or unacceptable application of IFRS Standards. Technical decisions are made in public and reported in IASB® *Update*.

13. We continue to monitor these timetables and stakeholder concerns about their capacity. We currently believe that these timetables are achievable and, despite a few concerns, generally manageable for stakeholders. See Appendix A for a summary of estimated timetables for consultation documents.

### ***Move to standard-setting programme***

14. In March 2021, the Board decided to move the Second Comprehensive Review of the *IFRS for SMEs* Standard from the research phase to the standard-setting phase. The *IFRS for SMEs* Standard is maintained through periodic review. In moving the project to the standard-setting phase the Board has sufficient information via feedback on the request for information to proceed directly to an exposure draft.
