Perspectives of the new Chair

Key challenge

To remain relevant in an ever faster changing environment

• Previously unforeseen emerging topics → be proactive, “scan the horizon”
• New ways of digesting financial (and other) information → impact of/on digital
• Sustainability reporting developments
• Communication is key! → explain what we do and why, recipients’ perspective

Additional considerations

• Execution of current work plan → a new Chair ≠ a new work plan
• Be realistic about what can be achieved by when (resources!)
• Be cognisant about frequency and amount of change we impose on stakeholders
• Timeliness (too fast for some, too slow for others), but: independence and robust due process are essential for credibility of result!
Significant developments since the last meeting

Post-implementation Review of IFRS 9—Classification and Measurement

Objective
Assess whether the classification and measurement requirements in IFRS 9 are working as intended

Topics in the Request for Information

1. Business model, SPPI, fair value changes in equity instruments
   - Financial assets

2. Presentation of own credit gains and losses
   - Financial liabilities

3. Modifications to contractual cash flows, effective interest method, transition to IFRS 9
   - Other topics
Supplier Finance Arrangements

Objective
Provide information that would help investors determine the effects of supplier finance arrangements on a company’s liabilities and cash flows.

Approach
• Explain the type of arrangements to be included within the scope of the proposed amendments
• Add qualitative and quantitative disclosure requirements for supplier finance arrangements to meet overall and specific disclosure objectives
• Add supplier finance arrangements as an example within the existing liquidity risk disclosure requirements in IFRS 7

Next milestone
Exposure Draft expected Q4 2021
Classification of Debt with Covenants

Objective

Improve the information about liabilities with covenants provided through classification (as current or non-current), presentation and disclosure in financial statements.

Approach

• Specify that covenants with which an entity must comply after the reporting period do not affect classification of a liability as current or non-current at the end of the reporting period.

• Add presentation and disclosure requirements for non-current liabilities subject to covenants.

• Clarify situations in which an entity does not have a right to defer settlement.

Next milestone

Exposure draft expected Q4 2021

| Financial Instruments with Characteristics of Equity | The Board discussed:  
  • financial instruments with contingent settlement provisions; and  
  • the effects of laws on the contractual terms of financial instruments. |
| Dynamic Risk Management                      | The Board discussed potential refinements to the Dynamic Risk Management model (DRM model). The potential refinements address one of the challenges identified during meetings with preparers—incorporating risk limits in the DRM model. |
