This paper has been prepared for discussion at a public meeting of the International Accounting Standards Board (IASB). This paper does not represent the views of the IASB or any individual IASB member. Any comments in the paper do not purport to set out what would be an acceptable or unacceptable application of IFRS[®] Accounting Standards or the *IFRS for SMEs*[®] Accounting Standard. The IASB's technical decisions are made in public and reported in the IASB[®] *Update*.

Introduction

1. At its March 2021 meeting, the International Accounting Standards Board (IASB) tentatively decided to develop an exposure draft of amendments to the *IFRS for SMEs* Accounting Standard using the alignment approach it consulted on in the Request for Information *Comprehensive Review of the IFRS for SMEs Standard*, published in January 2020.
2. At its May 2021 meeting, the IASB started deliberating specific sections of the *IFRS for SMEs* Accounting Standard that could be aligned with new requirements in full IFRS Accounting Standards in the scope of the review. The appendix to this paper summarises the IASB's tentative decisions to date.

Purpose of this meeting

3. At this meeting the IASB will deliberate:
 - (a) whether to include additional guidance on the definition of public accountability in the *IFRS for SMEs* Accounting Standard and, if finalised, the draft Standard *Subsidiaries without Public Accountability: Disclosures*;
 - (b) transition requirements for amendments to the Standard arising from new IFRIC Interpretations and amendments to full IFRS Accounting Standards;

- (c) additional possible simplifications to requirements of IFRS 15 *Revenue from Contracts with Customers* in aligning Section 23 *Revenue* of the *IFRS for SMEs Accounting Standard* with IFRS 15; and sweep issues relating to the IASB’s tentative decisions to align Section 23 with IFRS 15; and
 - (d) the due process for publishing the Exposure Draft *Third edition of the IFRS for SMEs Accounting Standard*.
4. Agenda papers for discussion at this meeting are the following:
- (a) Agenda Paper 30A: *Towards an exposure draft—Guidance on public accountability*;
 - (b) Agenda Paper 30B: *Towards an exposure draft—Additional simplifications to IFRS 15 Revenue from Contracts with Customers*;
 - (c) Agenda Paper 30C: *Towards an exposure draft—Transition to the third edition of the IFRS for SMEs Accounting Standard*; and
 - (d) Agenda Paper 30D: *Due process and permission to begin the balloting process*.

The IASB’s alignment approach

5. The IASB’s alignment approach is to continue to develop the *IFRS for SMEs Accounting Standard* based on principles of full IFRS Accounting Standards. At its March 2021 meeting, the IASB agreed to apply the alignment approach on which the IASB consulted in the Request for Information.¹ The alignment approach treats alignment with full IFRS Accounting Standards as the starting point for developing the *IFRS for SMEs Accounting Standard*, and applies the principles of relevance to SMEs, simplicity and faithful representation, including the assessment of costs and benefits, in determining whether and how that alignment should take place. The approach applies these principles as follows:
- (a) relevance to SMEs is determined by assessing whether the problem addressed by requirements of full IFRS Accounting Standards would make a difference

¹ See paragraphs 32–37 of the [Request for Information Comprehensive review of the IFRS for SMEs Standard](#) published by the IASB in January 2020.

in the decisions of users of financial statements prepared applying the *IFRS for SMEs* Accounting Standard. If the relevance condition is met, the IASB would then consider the principle of simplicity for those requirements of full IFRS Accounting Standards. If the relevance condition is not met, analysis of the other two alignment principles ‘simplicity’ and ‘faithful representation’ is not necessary because alignment of the *IFRS for SMEs* Accounting Standard with those requirements of full IFRS Accounting Standards would not be appropriate.

- (b) applying the principle of simplicity involves looking at the requirements of full IFRS Accounting Standards that have satisfied the relevance condition and then assessing what simplifications are appropriate. For any simplifications made, the IASB would then consider the principle of faithful representation.
- (c) the principle of faithful representation is intended to help the IASB assess whether financial statements prepared applying the *IFRS for SMEs* Accounting Standard would faithfully represent the substance of economic phenomena in words and numbers. Simplifications that would result in financial statements that do not meet this criterion could damage the quality of information reported to users.

Next steps

- 6. Subject to the IASB’s agreement that all the necessary due process steps for the balloting of the Exposure Draft have been completed, the staff plan to begin the balloting process, with the aim of publishing the Exposure Draft in September 2022.

Project plan for the second phase of the review			
<p>1. The IASB tentatively decided:</p> <ul style="list-style-type: none"> • to move the project from its research programme to its standard-setting work plan. • to confirm that the scope of the review is as set out in the Request for Information. • to work towards publishing an exposure draft, proposing amendments to the <i>IFRS for SMEs</i> Accounting Standard for new requirements that are in the scope of the Review. • to develop proposed amendments to the <i>IFRS for SMEs</i> Accounting Standard using the approach on which the IASB consulted in the Request for Information. This approach treats alignment with full IFRS Accounting Standards as the starting point, and applies the principles of relevance to SMEs, simplicity and faithful representation, including the assessment of costs and benefits, in determining whether and how that alignment should take place. 	-	March 2021	-

<p>2. The IASB tentatively decided to propose:</p> <ul style="list-style-type: none"> • retaining Section 2 <i>Concepts and Pervasive Principles</i> as part of the <i>IFRS for SMEs</i> Accounting Standard; • aligning Section 2 with the 2018 <i>Conceptual Framework</i> and to emphasise that the requirements in the other sections of the Standard take precedence over what Section 2 would otherwise require; and • retaining the concept of ‘undue cost or effort’. 	2018 <i>Conceptual Framework</i>	May 2021	YES

If measuring contingent consideration at fair value would involve undue cost or effort, an entity would be required to measure the contingent consideration using a 'best estimate' (the most likely outcome)—with changes in the subsequent measurement being recognised in profit or loss—and provide the related disclosures. • add the requirements set out in IFRS 3 on accounting for an acquisition achieved in stages (step acquisitions). • introduce guidance (in the new appendix to Section 19) for a new entity formed in a business combination, as set out in paragraph B18 of IFRS 3 and the application guidance set out in paragraphs B13–B17 of IFRS 3. • align Section 19 with <i>Reference to the Conceptual Framework</i> issued in May 2020—so that: <ul style="list-style-type: none"> • to qualify for recognition, the identifiable assets acquired and liabilities assumed must meet, at the acquisition date, the definitions of assets and liabilities in Section 2 of the Standard—which the IASB has tentatively decided to align with the 2018 <i>Conceptual Framework for Financial Reporting</i>; and • for liabilities and contingent liabilities that would be within the scope of Section 21 <i>Provisions and Contingencies</i> of the Standard if they were incurred separately rather than assumed in a 	<p>IFRS 3 <i>Business Combinations</i></p>	<p>December 2021 May 2022</p>	<p>YES</p>
