

## Meeting summary

### ISSB Investor Advisory Group

Date **23 February 2023**

This document summarises the Q123 meeting of the ISSB Investor Advisory Group (IIAG), a group of leading asset owners and asset managers in various markets who are committed to improving the quality and comparability of sustainability-related financial disclosures. The IIAG serves as an advisory body to the ISSB: providing strategic guidance on developing IFRS Sustainability Disclosure Standards; and helping to ensure that the investor perspective is articulated clearly and is considered in the ISSB's standard-setting process. The IIAG also helps achieve widespread adoption of IFRS Sustainability Disclosure Standards by encouraging organizations to use the Standards to communicate performance to investors on sustainability-related issues that affect enterprise value.
