What I will cover

- From Trustee to MD
- My priorities as MD of the Foundation
- Why your support and insight is critical

First conclusions

1. The Foundation has built over the years a very strong franchise with the IASB, and the ISSB is a major development to help secure its long-term success in developed and emerging economies
2. The Foundation operational capacity lags the ambition we have set in motion and requires attention
3. Our current operating and funding models will need to be adjusted
4. Prioritisation in activities and resource allocations will be critical

Priorities for the next 2 years

1. Connect with our people and key stakeholders, foster internal collaboration
2. Build a sustainable 2025 budget + funding arrangements
3. Deliver greater resilience, efficiency and effectiveness of shared services supporting IASB and ISSB
4. Lead on and implement strategic plan and vision for medium term including target operating and funding model for both boards and shared services aligning resources and costs
