

## Strengthening professional education with IFRS Accounting Standards

*Real world use-case*

### THE CHALLENGE

Before licensing, Montenegro's accounting community lacked consistent access to official IFRS content in the local language. Practitioners and learners relied on fragmented sources, increasing the risk of outdated material, misquoting and inconsistent application across education and practice.

### THE SOLUTION

By licensing IFRS Accounting Standards, ICAM secured an authoritative, up-to-date source of truth and embedded it across its professional ecosystem, including:

- 01 Certification and examinations built on licensed IFRS content, ensuring credible learning
- 02 CPD aligned to official IFRS updates, keeping professional education current
- 03 Practitioner guidance enabling confident citation and application in practice

### WHY LICENSING IFRS CONTENT MATTERS

- Confidence in citing authoritative standards
- Reduced risk of misinterpretation or misquoting
- Scalable access across education and practice
- Support for public-interest and capacity-building goals

### CONTACT US

Contact [licensing@ifrs.org](mailto:licensing@ifrs.org) to discuss a package that meets your needs

### THE IMPACT

- Increased trust and credibility in professional education
- Consistent and accurate learning materials
- Faster updates with reduced version-control risk

*“Licensing gave us accuracy, authority and agility; it strengthened our education, improved practitioner confidence and accelerated ecosystem alignment.”*
