

Enabling trusted sustainability disclosures at scale

Real world use-case

 workiva

THE CHALLENGE

Before using ISSB Standards, Workiva's customers faced fragmented sustainability disclosures requirements, making it difficult to produce disclosures that investors could compare to other companies globally.

THE SOLUTION

Workiva used **IFRS Sustainability Licensing** to embed trusted sustainability standards directly into reporting workflows.

01

Licensed official **ISSB and SASB Standards** as the authoritative source for sustainability disclosures.

02

Integrated **jurisdiction-specific, ISSB-aligned standards** into its AI-powered platform to support global reporting needs.

03

Built standards into workflows, enabling assured, auditable and connected reporting across financial and sustainability data.

WHY LICENSING IFRS CONTENT MATTERS

- Authoritative standards direct from the global standard-setter
- Built-in confidence for regulated and assured reporting
- Timely updates as ISSB Standards evolve
- Digital-ready content designed for workflow integration

THE IMPACT

- Faster, more confident compliance across multiple jurisdictions
- Integrated, auditable reporting linking financial, sustainability and risk data
- Reduced complexity, enabling teams to focus on managing sustainability risks

"At its core, licensing enables trusted, integrated and assured reporting, the kind that delivers real business value and global impact."
