This Profile provides information about the application of IFRS® Accounting Standards (Standards) in Mongolia. The Standards are developed and issued in the public interest by the International Accounting Standards Board (IASB). The IASB is the standard-setting body of the IFRS Foundation (Foundation), an independent, private sector, not-for-profit organisation.

The Foundation has prepared this Profile based on information from various sources. The starting point was the answers provided by standard-setting and other bodies in response to surveys the Foundation conducted on the application of the Standards around the world. The Foundation drafted the profile and invited the respondents to the survey. The Foundation also invited others (including regulators and international audit firms) to review the drafts. Their comments are reflected in this Profile.

The purpose of the Foundation's Jurisdictional Profiles is to illustrate only the extent of implementation of the Standards across the globe. The Profiles do not reflect the intellectual property licensing status of the Standards within any given jurisdiction. The Standards are protected by copyright and are subject to licensing arrangements agreed upon within their jurisdiction. For further information, please contact permissions@ifrs.org.

RELEVANT JURISDICTIONAL AUTHORITY

Organisation

Two organisations participated in the survey:

1. The Ministry of Finance of Mongolia (MOF)
2. The Mongolian Institute of Certified Public Accountants (MONICPA)

Role of the organisation

Ministry of Finance: As stated in the Accounting Law of Mongolia, the Ministry of Finance is responsible for developing, setting, and implementing accounting standards. Moreover, the MOF, particularly the Accounting Policy Department, is in charge of supervising the implementation of IFRS Standards and International Public Sector Accounting Standards (IPSASs) for entities. In that role it develops and approves guidance, interpretations, and other related documents. In addition, the MOF translates and organises workshops for accountants to assist with the implementation of the International Accounting, Auditing and Valuation Standards.

Mongolian Institute of Certified Public Accountants (MonICPA): The MonICPA is the non-governmental organisation responsible by statute to approve and enforce the Code of Professional Ethics for professional accountants and auditors, establish and enforce auditing standards, conduct the CPA examination, and provide professional training. With respect to accounting standards, the MonICPA advises the Ministry of Finance about the adoption of IFRS Standards, but it is the Ministry of Finance that is the official accounting standard-setting body in Mongolia.
