September 2022

IASB[®] Meeting

Project	Primary Financial Statements
Paper topic	Cover note and summary of feedback and redeliberations

CONTACT(S) Aqila Zukhi azukhi@ifrs.org

This paper has been prepared for discussion at a public meeting of the International Accounting Standards Board (IASB). This paper does not represent the views of the IASB or any individual IASB member. Any comments in the paper do not purport to set out what would be an acceptable or unacceptable application of IFRS[®] Accounting Standards. The IASB's technical decisions are made in public and are reported in the IASB[®] *Update*.

Purpose of this meeting

1. At this meeting we will continue discussing the proposals from the Exposure Draft *General Presentation and Disclosures* relating to:
 - (a) unusual income and expenses;
 - (b) associates and joint ventures held by entities with specified main business activities;
 - (c) investments in subsidiaries, associates and joint ventures;
 - (d) incremental expenses;
 - (e) specified subtotals; and
 - (f) presentation of operating expenses.
2. We will discuss the following papers:
 - (a) Agenda Paper 21A: *Unusual income and expenses*;
 - (b) Agenda Paper 21B: *Entities with specified main business activities — Associates and joint ventures*;
 - (c) Agenda Paper 21C: *Investments in subsidiaries, associates and joint ventures*;
 - (d) Agenda Paper 21D: *Classification of incremental expenses*;
 - (e) Agenda Paper 21E: *Specified subtotals*; and
 - (f) Agenda Paper 21F: *Presentation of operating expenses*.

IASB Next steps

3. At future IASB meetings, we will continue redeliberating the project proposals. Over the next few months, we plan to bring the IASB papers discussing a number of project topics, including:
 - (a) remaining proposals relating to subtotals in the statement of profit or loss and entities with specified main business activities;
 - (b) further discussion relating to general principles of disaggregation; and
 - (c) remaining proposals relating to management performance measures.

Summary of proposals discussed and proposals yet to be redeliberated

4. Appendix A gives an overview of project status, listing the proposals in the Exposure Draft that have been discussed and proposals that are yet to be redeliberated by the IASB.

Summary of proposals and feedback

5. Appendix B summarises proposals in the Exposure Draft, feedback received and the IASB's tentative decisions made so far. As the IASB redeliberates the proposals, we will be updating Appendix B to include the latest tentative decisions.

Diagram summarising the proposals for the structure of the statement of profit or loss

6. Appendix C provides a diagram summarising the proposals in the Exposure Draft and the changes tentatively agreed by the IASB in the redeliberations to date on the structure of the statement of profit or loss for entities applying the general model.

Appendix A—Project status summary

Topic	Proposals discussed	Proposals yet to be redeliberated
Subtotals	<ul style="list-style-type: none"> • Required subtotals • Classification in categories, general model • Associates and joint ventures 	<ul style="list-style-type: none"> • Remaining issues relating to classification by entities with specified main business activities (see AP21B of this meeting) • Remaining issues related to investing and financing categories (see AP21D of this meeting) • Separate financial statements (see AP21C of this meeting)
Management performance measures	<ul style="list-style-type: none"> • Scope and definition • Disclosure of reconciliation • Aspects of the disclosure of tax and NCI • Use of columns 	<ul style="list-style-type: none"> • Remaining issues related to disclosure of tax and NCI • Changes in management performance measures, relationship with segments and other (see AP21E of this meeting)
Disaggregation and other	<ul style="list-style-type: none"> • Roles of primary financial statements and notes • General principles of aggregation and disaggregation • Direction for unusual income and expenses • Definition of unusual income and expenses • Presentation of operating expenses • Direction for disclosure of operating expenses • Statement of cash flows • Disclosure of operating expenses 	<ul style="list-style-type: none"> • Remaining issues relate to definition of unusual income and expenses, related disclosures (see AP21A of this meeting) • Remaining issues relating to disclosure of operating expenses (see AP21F of this meeting) • Proposals relating to items labelled ‘other’ and other remaining general disaggregation topics • Remaining proposals for statement of cash flows • Consequential amendments

Appendix B—Summary of proposals, feedback and tentative decisions

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>December 2020</p> <p>AP21B Subtotals and categories – general model</p>	<p>Subtotals</p> <p>A1. The Exposure Draft proposed that an entity presents the following new subtotals in the statement of profit or loss (paragraph 60 of the Exposure Draft):</p> <p>a) operating profit or loss (operating profit);</p> <p>b) operating profit or loss and income and expenses from integral associates and joint ventures; and</p> <p>c) profit or loss before financing and income tax.</p>	<p>Subtotals</p> <p>B1. Most respondents agreed with the proposals to introduce defined subtotals in the statement of profit or loss. They think the proposals have the potential to result in useful information and improve comparability between entities.</p> <p>B2. Many respondents agreed with the proposals to define the operating category as a residual category. However, some respondents disagreed with defining the operating category as a residual category and preferred a ‘positive’ or ‘direct’ definition because they disagreed with the content of operating profit.</p>	<p>Subtotals—operating profit</p> <p><i>Confirmed proposals</i></p> <p>C1. The IASB tentatively confirmed that entities would be required to present an operating profit subtotal in the statement of profit or loss and not to develop a direct definition of operating profit.</p> <p>Subtotals—profit before financing and income tax</p> <p><i>Confirmed proposals</i></p> <p>C2. The IASB tentatively confirmed to retain the proposal to define the ‘profit before financing and income tax’ subtotal and require it to be presented in the statement of profit or loss.</p>
<p>March 2021</p> <p>AP21A Subtotals in the statement of profit or loss—operating profit</p>	<p>Categories</p> <p>A2. In applying these proposed new subtotals, an entity would present in the statement of profit or loss income and expenses classified in the following categories (paragraph 45 of the Exposure Draft):</p> <p>a) operating;</p> <p>b) integral associates and joint ventures;</p>	<p>Categories</p> <p>B3. Most respondents agreed with the proposals to introduce categories in the statement of profit or loss. They think the proposals have the potential to result in useful information and improve comparability between entities.</p> <p>B4. However, some respondents said additional guidance would be needed to achieve consistent application and comparability, including guidance</p>	<p>Categories</p> <p><i>Confirmed proposals</i></p> <p>C3. The IASB tentatively confirmed to retain the proposal to introduce separate investing and financing categories in the statement of profit or loss.</p> <p>C4. See below for the confirmed proposals and changes to the proposals related to derivatives and hedging instruments, foreign exchange differences and alignment of the investing</p>
<p>May 2021</p> <p>AP21A Subtotals and categories—financing category</p>	<p>Categories</p> <p>A2. In applying these proposed new subtotals, an entity would present in the statement of profit or loss income and expenses classified in the following categories (paragraph 45 of the Exposure Draft):</p> <p>a) operating;</p> <p>b) integral associates and joint ventures;</p>	<p>Categories</p> <p>B3. Most respondents agreed with the proposals to introduce categories in the statement of profit or loss. They think the proposals have the potential to result in useful information and improve comparability between entities.</p> <p>B4. However, some respondents said additional guidance would be needed to achieve consistent application and comparability, including guidance</p>	<p>Categories</p> <p><i>Confirmed proposals</i></p> <p>C3. The IASB tentatively confirmed to retain the proposal to introduce separate investing and financing categories in the statement of profit or loss.</p> <p>C4. See below for the confirmed proposals and changes to the proposals related to derivatives and hedging instruments, foreign exchange differences and alignment of the investing</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>AP21B Subtotals and categories—profit before financing and income tax</p> <p>July 2021</p> <p>AP21A Classification of income and expenses in the financing category of statement of profit or loss</p> <p>AP21B Classification of fair value gains or losses on derivatives and hedging instruments</p> <p>AP21C Classification of foreign exchange differences in profit or loss</p>	<p>c) investing; and</p> <p>d) financing.</p>	<p>on the definitions of the categories and the term ‘main business activities’.</p> <p>B5. Many respondents expressed concerns about:</p> <p>a) the proposed classification of foreign exchange differences and of fair value gains and losses on derivatives and hedging instruments—they question whether the benefits of such classification would outweigh the costs; and</p> <p>b) the proposed labels for the categories in the statement of profit or loss—they say it is confusing that the labels are similar to the labels of the categories in the statement of cash flows, although the content of the categories is different.</p>	<p>categories in the statement of profit or loss and statement of cash flows.</p>
<p>Operating category</p> <p>A3. The operating category would include income or expenses not classified in the other categories such as the investing category or the financing category. In other words, the operating category would be the default category (paragraph 46 of the Exposure Draft).¹</p> <p>A4. The Exposure Draft proposed specific requirements for entities with specified main business activities, to ensure that the operating category includes all income and expenses from their main business activities. These requirements and related</p>	<p>Operating category</p> <p>B6. Some respondents expressed concerns about defining the operating category as a residual category—mainly because they disagree with including in operating profit some income and expenses that are unusual, volatile or do not arise from an entity’s main business activities.</p>	<p>Operating category</p> <p><i>Confirmed proposals</i></p> <p>C5. The IASB tentatively confirmed that:</p> <p>a) these types of income and expenses shall not be classified in the operating category: investing, financing, income tax, and discontinued operations.</p> <p>b) the operating category comprises all income and expenses arising from an entity’s operations, including volatile and unusual income and expenses arising from an entity’s operations; and includes, but is not limited to, income and expenses from an entity’s main business activities.</p>	

¹ Also see paragraphs BC53–BC57 of the Basis for Conclusions on the Exposure Draft.

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
December 2021 AP21B Income and expenses classified in the investing category	feedback are discussed in Agenda Paper 21C of the December 2020 IASB meeting. Investing category A5. The investing category would include returns from investments, that is, income and expenses from assets that generate a return individually and largely independently of other resources held by an entity. The investing category would also include related incremental expenses (paragraph 47 of the Exposure Draft). ²	Investing category B7. Many respondents agreed with the proposal for the investing category. However, some respondents said the definition is insufficiently robust. B8. A few respondents expressed concerns about including incremental expenses in the investing category.	Investing category <i>Confirmed proposals</i> C6. The IASB tentatively decided: <ul style="list-style-type: none"> a) to retain the proposal for entities to classify in the investing category income and expenses from assets that generate returns individually and largely independently of other resources held by an entity; b) to retain the proposed application guidance in the Exposure Draft; and c) to retain the label ‘investing category’ for that category. <i>Changes to the proposals</i> C7. The IASB tentatively decided: <ul style="list-style-type: none"> a) to add further application guidance stating that income and expenses arising from individual assets and disposal groups held for sale and income and expenses arising from business combinations would not be classified in the investing category, and negative returns are classified in the same category as positive returns; b) to classify income and expenses from associates and joint ventures in the investing category; c) to remove the discussion of the objective from the requirements in the Standard and explain in the Basis for Conclusions the

² Also see paragraphs B32–B33 of the Exposure Draft and BC48–BC52 of the Basis for Conclusions on the Exposure Draft.

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
			<p>reasons for including specific items in the investing category; and</p> <p>d) not to proceed with the proposed use of the defined term ‘income and expenses from investments’.</p> <p>C8. The IASB will discuss other aspects of proposals at a future meeting.</p>
	<p>Financing category</p> <p>A6. The financing category would include (paragraph 49 of the Exposure Draft):³</p> <p>a) income and expenses from cash and cash equivalents;</p> <p>b) income and expenses on liabilities arising from financing activities; and</p> <p>c) interest income and expenses on other liabilities, for example, the unwinding of discounts on pension liabilities and provisions.</p>	<p>Financing category</p> <p>B9. Some respondents expressed concerns about the proposed classification of income and expenses from cash and cash equivalents and other investments held as part of treasury activities.</p>	<p>Financing category</p> <p><i>Changes to the proposals</i></p> <p>C9. The IASB tentatively decided not to proceed with the proposed addition to the definition of ‘financing activities’ in IAS 7 <i>Statement of Cash Flows</i>.</p> <p>C10. The IASB tentatively decided to require an entity to classify income and expenses from cash and cash equivalents in the investing category rather than the financing category.</p> <p>C11. The IASB tentatively decided in relation to the classification in categories of statement of profit or loss to:</p> <p>a) require an entity to classify in the financing category:</p> <p style="padding-left: 20px;">i) for liabilities that arise from transactions that involve only the raising of finance—all income and expenses;</p> <p style="padding-left: 20px;">ii) from other liabilities—specified income and expenses (see C13);</p> <p>b) describe transactions that involve only the raising of finance as transactions that involve:</p> <p style="padding-left: 20px;">i) the receipt by the entity of cash, a reduction in a financial liability or an entity’s own equity;</p> <p style="padding-left: 20px;">ii) the return by the entity of cash or an entity’s own equity;</p>

³ Also see paragraphs B34–B37 of the Exposure Draft and BC33–BC47 of the Basis for Conclusions on the Exposure Draft.

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
			<p>c) require an entity, in relation to hybrid contracts with host liabilities and embedded derivatives, to classify:</p> <ul style="list-style-type: none"> i) income and expenses relating to separated host liabilities in the same way as income and expenses on other liabilities; ii) income and expenses relating to separated embedded derivatives in the same way as income and expenses on stand-alone derivatives; and iii) income and expenses related to contracts that are not separated in the same way as income and expenses on other liabilities. <p>C12. In addition, the IASB tentatively decided to develop disclosure requirements for the situation in which an entity designates an entire hybrid contract as at fair value through profit or loss and as a result does not separate from the host financial liability an embedded derivative that is otherwise required to be separated by IFRS 9 <i>Financial Instruments</i>. The objective of these disclosure requirements would be to give users of financial statements information about when the use of the fair value option changes the classification of income and expenses.</p> <p>C13. For liabilities that arise from transactions that do not involve only the raising of finance, except some such liabilities specified by the IASB, the IASB tentatively decided to require an entity to classify in the financing category of the statement of profit or loss interest expense and the effect of changes in interest rates, when such amounts are identified applying the requirements of IFRS Accounting Standards.</p> <p>C14. The IASB specified that this tentative decision does not apply to liabilities that arise from transactions that do not involve only the raising of finance and that:</p> <ul style="list-style-type: none"> a) are hybrid contracts in the scope of IFRS 9 measured at amortised cost; and

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
			<p>b) include an embedded derivative the economic characteristics and risks of which are closely related to the economic characteristics and risks of the host contract.</p> <p>C15. In relation to these specified liabilities, the IASB decided to explore an approach that would classify all income and expenses in the financing category of the statement of profit or loss.</p>
	<p>Derivatives and hedging instruments</p> <p>A7. The IASB’s proposals for the classification of gains or losses on derivatives and hedging instruments can be summarised as follows:</p>	<p>Derivatives and hedging instruments and foreign exchange differences</p> <p>B10. Many respondents expressed concerns about the proposed classification of foreign exchange differences and of fair value gains and losses on derivatives and hedging instruments—they question whether the benefits of such classification would outweigh the costs.</p>	<p>Derivatives and hedging instruments</p> <p><i>Confirmed proposals</i></p> <p>C16. The IASB tentatively confirmed that fair value gains or losses on financial instruments used for risk management that are designated or used for risk management but are not designated as hedging instruments should be classified in the category affected by the risk the entity manages, except when doing so would involve:</p> <p>a) grossing up of fair value gains or losses (derivatives designated as hedging instruments); or</p> <p>b) undue cost or effort (derivatives not designated as hedging instruments).</p> <p><i>Changes to the proposals</i></p> <p>C17. The IASB tentatively decided in cases where classifying fair value gains or losses in the category of the statement of profit or loss affected by the risk the entity manages involves grossing up of fair value gains or losses (derivatives designated as hedging instruments) or undue cost or effort (derivatives not designated as hedging instruments) an entity would classify all fair value gains or losses in the operating category.</p>

December 2020	Entities with specified main business activities	Operating category	Main business activities <i>Changes to the proposals</i>																				

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>AP21C Subtotals and categories – entities with particular main business activities</p> <p>March 2022</p> <p>AP21A Entities with specified main business activities - general issues</p> <p>May 2022</p> <p>AP21D Investments accounted for using the equity method</p> <p>July 2022</p> <p>AP21A Entities with</p>	<p>A9. In addition to the general model, the Exposure Draft proposed specific requirements for entities with specified main business activities to ensure that the operating category includes all income and expenses from their main business activities. The Exposure Draft proposed that the operating category would include:</p> <p>a) income and expenses from investments made in the course of an entity’s main business activities (paragraph 48 of the Exposure Draft). For example, this proposal would apply to insurers and investment entities. An entity would assess on an asset-by-asset basis whether investments are made in the course of its main business activities.⁴</p> <p>b) some or all income and expenses from financing activities and income and expenses from cash and cash equivalents if the entity provides financing to customers as a main business activity (paragraph 51 of the Exposure Draft). For example, this proposal would apply to banks and entities that provide financing to customers purchasing their products. The choice of whether some or all such income and expenses is included in the</p>	<p>B11. Most respondents agreed with the proposals to require entities to classify in the operating category:</p> <p>a) income and expenses from investments made in the course of an entity’s main business activities; and</p> <p>b) income and expenses from financing activities and income and expenses from cash and cash equivalents if the entity provides financing to customers as a main business activity.</p> <p>Main business activities</p> <p>B12. However, many respondents said additional guidance would be needed to achieve consistent application and comparability, including guidance on the terms ‘main business activities’ and ‘in the course of main business activities’.</p> <p>Accounting policy choice</p> <p>B13. Many respondents disagreed with the proposed accounting policy choice for entities that provide financing to customers as a main business activity. Some respondents suggest that, to improve comparability between entities, the accounting policy choice should be restricted or replaced with a practical expedient.</p>	<p>C21. The IASB tentatively decided to provide additional guidance by clarifying that:</p> <p>a) the role of main business activities is limited to assessing whether an entity invests in the course of main business activities or provides financing to customers as a main business activity. The assessment is performed at the reporting-entity level. Any changes in the outcome of the assessment should be applied prospectively with disclosure of:</p> <p style="padding-left: 20px;">i) the fact that there has been a change; and</p> <p style="padding-left: 20px;">ii) information about the effect of the change that would allow users to perform trend analysis on operating profit;</p> <p>b) investing in the course of its main business activities or providing financing to customers as a main business activity is a matter of fact and not an assertion. An entity will need to use its judgement in assessing whether it invests in the course of its main business activities or provides financing to customers as a main business activity. The assessment should be based on observable evidence to the extent available. Examples of observable evidence include:</p> <p style="padding-left: 20px;">i) operating performance measures used in public communications; and</p> <p style="padding-left: 20px;">ii) information about segments, if an entity applies IFRS 8 <i>Operating Segments</i>.</p> <p>c) examples of important indicators of operating performance for entities with specified main business activities are the specified subtotals similar to gross profit in paragraph B78 of the Exposure Draft.</p>

⁴ Also see paragraphs B27 of the Exposure Draft and BC58–BC61 of the Basis for Conclusions on the Exposure Draft.

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>specified main business activities-issues specific to the investing category</p> <p>AP21B</p> <p>Entities with specified main business activities-financing category</p>	<p>operating category would be an accounting policy choice.⁵</p> <p>c) income and expenses from cash and cash equivalents if the entity, in the course of its main business activities, invests in financial assets that generate a return individually and largely independently of other resources held by the entity (paragraph 52(a) of the Exposure Draft).⁶</p> <p>d) income and expenses on liabilities arising from issued investment contracts with participation features recognised applying IFRS 9 <i>Financial Instruments</i> (paragraph 52(b) of the Exposure Draft).⁷</p> <p>e) insurance finance income and expenses included in profit or loss (paragraph 52(c) of the Exposure Draft).⁸</p>		<p>C22. The IASB discussed an educational paper on the proposal for entities with specified main business activities to classify outside of the operating category income and expenses from associates and joint ventures accounted for using the equity method at the May 2022 meeting.</p> <p>Investing category</p> <p><i>Changes to the proposals</i></p> <p>C23. The IASB tentatively decided:</p> <p>a) to require an entity that invests as a main business activity to classify in the operating category income and expenses from assets that would otherwise be classified in the investing category.</p> <p>b) to permit an entity to group assets with shared characteristics for the purpose of assessing whether those investments are made as a main business activity. The way an entity groups financial assets for this assessment should be consistent with the way it groups financial assets into classes for the purposes of disclosures about financial instruments, in accordance with IFRS 7 <i>Financial Instruments: Disclosures</i>.</p> <p>c) to add application guidance clarifying that income and expenses from financial assets arising from providing financing to customers are classified in the operating category. The IASB also decided to explore a related disclosure requirement.</p>

<p>AP21D Subtotals and categories – Integral and non-integral associates and JVs</p> <p>October 2021</p> <p>AP21A Associates and joint ventures</p> <p>December 2021</p> <p>AP21B Income and expenses classified in the investing category</p>	<p>integral or non-integral to the entity’s main business activities, and proposed definitions of integral and non-integral associates and joint ventures. The Exposure Draft also proposed to require an entity to provide information about integral associates and joint ventures separately from that for non-integral associates and joint ventures. The Exposure Draft proposed that an entity would be required to:</p> <p>a) classify, in the ‘integral associates and joint ventures’ category of the statement of profit or loss, income and expenses from integral associates and joint ventures, and present a subtotal for ‘operating profit or loss and income and expenses from integral associates and joint ventures’ (paragraphs 53 and 60(b) of the Exposure Draft);</p> <p>b) present, in each of the categories of the statement of comprehensive income, the share of other comprehensive income of integral associates and joint ventures separately from non-integral associates and joint ventures (paragraph 75(a) of the Exposure Draft);</p> <p>c) present, in the statement of financial position, investments in integral associates and joint ventures separately from investments in non-integral</p>	<p>overall view, commenting instead on specific aspects of the proposals. However, of those that expressed an overall view, more disagreed with the proposals than agreed.</p> <p>B15. Most respondents highlighted concerns with the proposals. These respondents included respondents that agreed with the proposals, respondents that disagreed and respondents that did not express an overall view. Their concerns relate to:</p> <p>a) the proposal to identify separately integral associates and joint ventures;</p> <p>b) the proposed definition of integral and non-integral associates and joint ventures; and</p> <p>c) the separate presentation of amounts relating to these investments in the primary financial statements.</p> <p>B16. Overall, there is not much support among stakeholders for the proposals. Both preparers and users generally disagreed with the proposals. However, most users agreed with one aspect of the proposal, the exclusion from operating profit of the share of profit or loss from equity-accounted associates and joint ventures.</p> <p>B17. Feedback from fieldwork identified many practical difficulties with the proposed requirements.</p>	<p>C27. The IASB tentatively confirmed to require an entity to classify income and expenses from equity-accounted associates and joint ventures outside the operating category.</p> <p><i>Changes to the proposals</i></p> <p>C28. The IASB tentatively decided:</p> <p>a) not to proceed with the proposal to require an entity to present the subtotal ‘operating profit or loss and income and expenses from integral associates and joint ventures’; and</p> <p>b) not to proceed with the proposal to require an entity to identify and present income and expenses from integral associates and joint ventures separately from income and expenses from non-integral associates and joint ventures.</p> <p>C29. The IASB also tentatively decided to require an entity to include income and expenses from equity-accounted associates and joint ventures in the statement of profit or loss:</p> <p>a) after operating profit and before the subtotal profit before financing and income taxes;</p> <p>b) in the investing category (see ‘Investing category’ above); and</p> <p>c) not to specify that such income and expenses should be presented immediately after operating profit.</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
	<p>associates and joint ventures (paragraphs 82(g)–82(h) of the Exposure Draft); and</p> <p>d) disclose, in the notes, information required by paragraph 20 of IFRS 12 <i>Disclosure of Interests in Other Entities</i> for integral associates and joint ventures separately from non-integral associates and joint ventures (proposed new paragraph 20E of IFRS 12).</p> <p>A11. The proposed new paragraphs 20A–20E of IFRS 12 and 38A of IAS 7, the proposed requirements are set out in paragraphs 60(b), 53, 75(a), 82(g)–82(h) of the Exposure Draft and paragraphs BC77–BC89 and BC205–BC213 of the Basis for Conclusions on the Exposure Draft describe the IASB’s reasons for these proposals and discuss approaches that were considered but rejected by the IASB.</p>		
<p>December 2020</p> <p>AP21E Disaggregation – general proposals and minimum line items</p>	<p>Principles of aggregation and disaggregation</p> <p>A12. The Exposure Draft also proposed principles and general requirements on the aggregation and disaggregation of information—the principles would be applicable to both presentation in the primary financial statements and disclosures in the notes. The principles would require an entity to classify identified assets, liabilities, equity, income and expenses into groups based on</p>	<p>Principles of aggregation and disaggregation</p> <p>B18. Most respondents commented on the principles of aggregation and disaggregation and the proposals relating to disaggregation and labelling of items described as ‘other’. Of these many agreed with the proposals but some disagreed, mostly expressing disagreement with proposals relating to items labelled as ‘other’. Many did not express agreement or disagreement and instead commented on the need for additional guidance or</p>	<p>Principles of aggregation and disaggregation</p> <p><i>Changes to the proposals</i></p> <p>C30. The IASB tentatively decided in relation to the principles of aggregation and disaggregation to:</p> <p>a) state the purpose of disaggregation more clearly—items shall be disaggregated if the resulting disaggregated information is material.</p> <p>b) strengthen the application of that principle by emphasising that a single dissimilar (non-shared) characteristic between items</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>April 2021</p> <p><u>AP21A Principles of aggregation and disaggregation and roles of the primary financial statements and the notes</u></p>	<p>shared characteristics and to separate those items based on further characteristics. The Exposure Draft also proposed to require an entity to use meaningful labels for the group of immaterial items that are not similar and to consider whether it is appropriate to use non-descriptive labels such as ‘other’.</p>	<p>clarifications, particularly on the proposal relating to items labelled as ‘other’.</p>	<p>would be sufficient to require an entity to disaggregate information about those items if that information were material.</p> <p>c) explore developing guidance for entities on how to use characteristics to identify when to aggregate or disaggregate items.</p> <p>C31. The IASB tentatively decided to set out the relationship between the general presentation and disclosure requirements and the principles of aggregation and disaggregation, subject to considering whether ‘class’ is the best term to use in all situations.</p> <p>C32. The IASB tentatively decided to require an entity to explain how a disclosed class of items is included in line items in the primary financial statements.</p> <p>C33. The IASB tentatively decided to include application guidance summarising characteristics that:</p> <p>a) if shared, might form the basis for aggregating items that comprise a class that enhances the understandability of information provided in the financial statements.</p> <p>b) if not shared, might form the basis for disaggregating a single class of items into separate classes that provide material information.</p> <p>Aggregation and disaggregation in the notes</p> <p>C34. The IASB tentatively decided to provide application guidance that states that, in general, the more diverse the items in a class (that is, the more dissimilar characteristics the items have in addition to the shared characteristics that form the basis for the class) the more likely it would be that disaggregation based on some of those dissimilar characteristics would result in material information.</p>
<p>September 2021</p> <p><u>AP21D Principles of aggregation and disaggregation and their application in the primary financial statements and the notes</u></p>			
<p>February 2022</p>			

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
AP21A Principles for presentation and required line items in primary financial statements			<p>C35. The IASB also discussed whether to provide cost relief for the general requirement to provide information about classes. The IASB decided to continue that discussion after it has considered cost relief for specific disclosure requirements at a future IASB meeting.</p> <p>Aggregation and disaggregation in the primary financial statements</p> <p>C36. The IASB tentatively decided to provide application guidance that states that, in general, the more diverse the items in a class (that is, the more dissimilar characteristics the items have in addition to the shared characteristics that form the basis for the class) the more likely it would be that disaggregation based on some of those dissimilar characteristics would result in a more understandable overview.</p>
	<p>Roles of the primary financial statements and the notes</p> <p>A13. The Exposure Draft proposed to describe the roles of the primary financial statements and the notes.</p>	<p>Roles of the primary financial statements and the notes</p> <p>B19. Many respondents commented on the roles of primary financial statements and notes. Of these, most agreed with the proposals and a few disagreed.</p>	<p>Roles of the primary financial statements and the notes</p> <p><i>Confirmed proposals</i></p> <p>C37. The IASB tentatively confirmed that in relation to the roles of primary financial statements to not reinstate paragraph 29 of IAS 1 <i>Presentation of Financial Statements</i> in the new IFRS Accounting Standard.</p> <p><i>Changes to the proposals</i></p> <p>C38. The IASB tentatively decided to include a reference to understandability in the description of the role of the primary financial statements.</p>
	<p>Minimum line items</p> <p>A14. The Exposure Draft proposed some additional minimum line items to be presented in the statement of profit or loss</p>	<p>Minimum line items</p> <p>B20. Some respondents commented on the requirements for minimum line items. Of those, some agreed with the proposals and some</p>	<p>Minimum line items</p> <p><i>Confirmed proposals</i></p> <p>C39. The IASB tentatively decided:</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
	<p>(expenses from financing activities and share of profit or loss from integral and non-integral associates and joint ventures) and in the statement of financial position (goodwill and integral and non-integral associates and joint ventures).</p> <p>A15. The proposed requirements, including those proposed to be carried over from IAS 1, are set out in paragraphs 20–21, 25–28, and B5–B15 of the Exposure Draft and paragraphs BC19–BC27 of the Basis for Conclusions on the Exposure Draft describe the IASB’s reasons for these proposals.</p>	<p>disagreed. Most respondents that commented on the proposals said further guidance or clarification is needed.</p>	<p>a) not to revisit the requirements for specified line items brought forward from IAS 1 <i>Presentation of Financial Statements</i>;</p> <p>b) not to add a specific requirement to present impairments of non-financial assets;</p> <p>c) to proceed with the proposed requirement to present goodwill separately from intangible assets; and</p> <p>d) to proceed with the proposed requirement for required line items to be presented in each affected category in the statement of profit or loss.</p> <p><i>Changes to the proposals</i></p> <p>C40. The IASB tentatively decided:</p> <p>a) to revise the general principle for the presentation of line items in the primary financial statements set out in paragraph 42 of the Exposure Draft by removing the term ‘relevant’ and instead including a reference to an understandable overview of an entity’s income and expenses or assets, liabilities and equity;</p> <p>b) to require all presentation requirements to apply only when the resulting presentation does not detract from the primary financial statement providing an understandable overview;</p> <p>c) to add application guidance that indicates that in the operating category it is unlikely that the presentation of items set out in paragraph 65 of the Exposure Draft would reduce how useful the statement is in providing an understandable overview of the entity’s income and expenses;</p> <p>d) to remove the term ‘minimum’ from paragraph 42 of the Exposure Draft; and</p> <p>e) not to specify any required line items to be presented in the financing category in the statement of profit or loss.</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
			C41. The IASB will discuss other aspects of proposals at a future IASB meeting.
<p>December 2020</p> <p>AP21F Disaggregation – analysis of operating expenses</p> <p>October 2021</p> <p>AP21B Analysis of operating expenses - presentation in the statement of profit or loss</p> <p>AP21C Analysis of operating expenses - disclosure in the notes</p> <p>April 2022</p> <p>AP21A Analysis of operating expenses by</p>	<p>A16. The Exposure Draft proposed to continue to require entities to present in the statement of profit or loss an analysis of operating expenses using either the nature of expense method or the function of expense method.</p> <p>Method that provides the most useful information and prohibition on mixing the methods</p> <p>A17. The Exposure Draft proposed the method presented should be the one that provides the most useful information to users of financial statements and that entities should not present line items mixing the two methods, with the exceptions of line items that are required line items. In addition, the Exposure Draft proposed to describe the factors to consider when deciding which method of operating expense analysis should be used.</p>	<p>B21. Most respondents that commented on the proposals relating to the presentation of operating expenses in the statement of profit or loss. The respondents had mixed views.</p> <p>Method that provides the most useful information</p> <p>B22. Many respondents (mainly accountancy bodies and standard-setters) agreed and some (mainly preparers and their representative bodies) disagreed with the proposal to require an entity to select the method of analysis of operating expenses that is most useful;</p> <p>a) some of those who agreed said that the factors included in the application guidance were helpful, including how management reports internally and industry practice.</p> <p>b) some of those who disagreed said that entities already consider which method is most useful, so the proposals would require entities to incur additional costs for no reason, and the proposed guidance effectively gives an entity a free choice.</p> <p>Prohibition on mixing the methods</p> <p>B23. Many respondents (mainly users, accountancy bodies and standard-setters) agreed and many (mainly preparers and their representative bodies along with a few users) disagreed with the proposal to prohibit an entity from mixing the methods of analysis of expenses;</p>	<p>C41. The IASB will discuss other aspects of proposals at a future IASB meeting.</p> <p><i>Confirmed proposals</i></p> <p>C42. The IASB tentatively decided:</p> <p>a) not to develop a definition of the term ‘cost of sales’ as part of this project.</p> <p>b) to explore retaining the proposal to require an entity to analyse and present operating expenses in the statement of profit or loss based on their nature or function.</p> <p><i>Changes to the proposals</i></p> <p>C43. The IASB tentatively decided to explore:</p> <p>a) providing limited application guidance on the ‘function of expense’ method set out in paragraph 70 of the Exposure Draft;</p> <p>b) providing application guidance to explain that, as a minimum, cost of sales would include inventory expense (if applicable), calculated in accordance with IAS 2 <i>Inventories</i>;</p> <p>c) withdrawing the proposed prohibition on a mixed presentation and instead to provide application guidance in order to improve comparability and help achieve faithful representation; and</p> <p>d) retaining the proposal to provide application guidance on how to determine which presentation method an entity would use to provide the most useful information to users of the financial statements (but modifying that guidance as a consequence of withdrawing the proposal to prohibit a mixed presentation).</p> <p>C44. The IASB will continue discussing these proposals at a future IASB meeting.</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>nature in the notes</p> <p>July 2022</p> <p>AP21C Disclosure of operating expenses by nature in the notes</p>		<p>a) some of those who agreed said that the mixed presentation has emerged over time and the proposals are a good way to reset the boundaries of what is acceptable, and the proposals are not expected to have significant impact on entities, which are not mixing the two methods currently.</p> <p>b) some of those who disagreed said that in some instances, the mixed method provides the most useful information, and the proposals will not enhance comparability, especially with companies applying US GAAP.</p>	
	<p>Total operating expenses by nature in a single note</p> <p>A18. An entity that presents an analysis of operating expenses using the function of expense method in the statement of profit or loss would also be required to disclose in a single note an analysis of its total operating expenses using the nature of expense method.</p> <p>A19. The proposed requirements are set out in paragraphs 68, 72 and B45–B48 of the Exposure Draft and paragraphs BC109–BC114 of the Basis for Conclusions on the Exposure Draft describe the IASB’s reasons for the proposals.</p>	<p>Total operating expenses by nature in a single note</p> <p>B24. Many respondents (mainly users, standard-setters and accountancy bodies) agreed and many (mainly preparers and their representative bodies) disagreed with the proposal to require an entity to disclose an analysis of expenses by nature in the notes if they present analysis of expenses by function;</p> <p>a) some of those who agreed said that the analysis: will provide comprehensive information and help users make forecasts, will help reconcile the statement of cash flows with the income statement, and will enhance comparability, because it is less judgmental than analysis by functions.</p> <p>b) some of those who disagreed with the proposals said that both methods are equally relevant, but the proposals seem to favour by-nature analysis, and the costs of providing the analysis by nature</p>	<p>Total operating expenses by nature in a single note</p> <p><i>Confirmed proposals</i></p> <p>C45. The IASB tentatively decided not to explore providing an undue cost relief for the disclosure of information about operating expenses by nature when an entity presents in the statement of profit or loss an analysis of expenses by function.</p> <p>C46. The IASB discussed an educational paper on a partial matrix approach and the next steps at the April 2022 IASB meeting.</p> <p>Disclosures of operating expenses by nature in the notes</p> <p><i>Changes to the proposals</i></p> <p>C47. The IASB tentatively decided:</p> <p>a) to require an entity to disclose the amounts of depreciation, amortisation and employee benefits included in each line item in the statement of profit or loss.</p> <p>b) to explore an approach that would require an entity to disclose, for all operating expenses disclosed in the notes, the amounts</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
		<p>will be higher than the benefits, including some entities that may not be able to provide the analysis with their existing systems.</p> <p>B25. Feedback from fieldwork identified practical difficulties with the proposed requirements.</p>	<p>included in each line item in the statement of profit or loss ('a general requirement').</p> <p>C48. The IASB will continue discussing these proposals at a future meeting.</p>
<p>December 2020</p> <p>AP21G Disaggregated on – unusual income and expenses</p> <p>December 2021</p> <p>AP21A Unusual income and expenses</p> <p>May 2022</p> <p>AP21B Unusual income and expenses (income and expenses with limited recurrence)</p> <p>AP21C Income and</p>	<p>Definition of unusual items and disclosures</p> <p>A20. The Exposure Draft proposed introducing a definition of 'unusual income and expenses'; and proposed requiring all entities to disclose unusual income and expenses in a single note. The Exposure Draft also proposed application guidance to help an entity to identify its unusual income and expenses.</p> <p>A21. The proposed requirements are set out in paragraphs 100–102, B67–B75 of the Exposure Draft and paragraphs BC122–BC144 of the Basis for Conclusions on the Exposure Draft describe the IASB's reasons for the proposals and discuss approaches that were considered but rejected by the IASB.</p>	<p>Definition of unusual items</p> <p>B26. The key messages from the feedback on the proposals relating to unusual items are:</p> <p>a) most respondents who commented on this question, including almost all users of financial statements, agreed with the IASB defining unusual items. Users explained that they wish to identify recurring or normalised earnings but have to rely on voluntary disclosures by an entity to do so. Defining unusual items and requiring their disclosure would provide consistent input for users' analysis. Other respondents also indicated they expected defining unusual items would provide useful information. A few respondents specifically supported the discipline that they expected a definition would provide, thus reducing opportunistic classification of items as unusual; and</p> <p>b) however, most of these respondents, including some users, did not agree with the IASB's definition of unusual items. They said important aspects of the definition were unclear and suggested various clarifications and changes. Those suggestions did not lead to a clear</p>	<p>Definition of unusual income and expenses</p> <p><i>Changes to the proposals</i></p> <p>C49. The IASB tentatively decided:</p> <p>a) to explore how to proceed with a definition of 'unusual income and expenses';</p> <p>b) to remove the reference to 'limited predictive value' from the definition of 'unusual income and expenses', and clarify in the Accounting Standard that it is a necessary characteristic of unusual income and expenses, not the sole characteristic; and</p> <p>c) to develop the application guidance accompanying the definition of 'unusual income and expenses':</p> <p>i) to clarify that the definition means that 'unusual income and expenses' can be dissimilar in type or amount from income and expenses expected in the future;</p> <p>ii) to help an entity to assess whether similar income or expenses will arise in the future, based on guidance on the assessment of future transactions and other events in other IFRS Accounting Standards; and</p> <p>iii) to explain that in considering whether income or expenses are similar to expected future income or expenses, an entity would consider characteristics of the income and expenses, including the underlying event or transaction that gives rise to income or expenses.</p> <p>C50. The IASB tentatively decided:</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>expenses with limited recurrence disclosure</p> <p>July 2022</p> <p>AP21E Unusual income and expenses</p>		<p>consensus on what an alternative definition should be.</p> <p>Disclosures</p> <p>B27. Respondents were split evenly on whether or not they supported the proposed disclosure in a single note; some preferred presentation in the statement of profit or loss because it would provide a clear ‘normalised’ profit amount, but others thought that would add clutter to the statement and give too great an incentive for opportunistic labelling of items as unusual; some agreed with disclosure in a single note because it allows easy access to the information and helps in tracking what items are classified as unusual over time. Others said it would be more helpful to include the information in the notes for the specific items of income and expenses in question, for example the notes for IAS 37 provisions or IAS 36 impairments. They also said that the requirement for a single note could lead to duplication of information required by other IFRS Accounting Standards or regulations to be given elsewhere, for example in other notes or in the management commentary.</p>	<p>a) to label the items captured by the definition as ‘income and expenses with limited recurrence’. The IASB will consider whether to also restrict the use of the label ‘unusual income and expenses’ at a future meeting.</p> <p>b) to proceed with the definition:</p> <p style="padding-left: 40px;">Income and expenses have limited recurrence when it is reasonable to expect that income or expenses that are similar in type and amount will cease, and once ceased will not arise again, before the end of the assessment period.</p> <p>c) to explore how to define the assessment period, for example by linking it to the period of budgets and forecasts or specifying a minimum and/or maximum number of years.</p> <p>Disclosures</p> <p>C51. The IASB will consider at a future meeting an analysis of the implications in relation to forward-looking information of the disclosure requirement proposed in the Exposure Draft for a narrative description of why income and expenses that are similar in type or amount are not expected to arise for several future annual periods (now the assessment period).</p> <p><i>Confirmed proposals</i></p> <p>C52. Subject to the outcome of analysis in C51, the IASB tentatively decided:</p> <p>d) to continue to include in the definition income and expenses that are dissimilar to those expected to arise in the future because they are lower in amount.</p> <p>e) to reconfirm the proposal to require, for such items of income and expenses, disclosure of the amount recognised in the period.</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
			<p>C53. At the July 2022 meeting, the IASB discussed an educational paper on the questions that it will need to resolve to proceed with a definition of unusual income and expenses and areas to explore in targeted outreach.</p> <p>C54. The IASB will continue to discuss other aspects of proposals at a future meeting.</p>
<p>December 2020</p> <p>AP21H Management performance measures</p> <p>March 2021</p> <p>AP21B Scope of management performance measures – subtotals of income and expenses</p> <p>June 2021</p> <p>AP21A Scope of management</p>	<p>Including management performance measures in the financial statements</p> <p>A22. The Exposure Draft proposed that an entity disclose ‘management performance measures’ in a single note to the financial statements.</p> <p>A23. Totals or subtotals specified by IFRS Accounting Standards were specifically stated not to be management performance measures and include:</p> <ul style="list-style-type: none"> a) totals or subtotals required by the Exposure Draft; b) gross profit or loss (revenue less cost of sales) and similar subtotals; c) operating profit or loss before depreciation and amortisation; d) profit or loss from continuing operations; and e) profit or loss before income tax. <p>A24. When disclosing management performance measures the Exposure Draft proposed an entity would also be required</p>	<p>Including management performance measures in the financial statements</p> <p>B28. Many respondents, including almost all users, agreed with the IASB’s proposals to require the disclosure of management performance measures in the notes to the financial statements. These respondents said that including these measures in the financial statements would provide useful information and that the proposed disclosure requirements would bring needed discipline and transparency.</p> <p>B29. Some respondents disagreed with including management performance measures in the financial statements stating the following reasons:</p> <ul style="list-style-type: none"> a) in their view non-GAAP measures are either outside the scope of financial statements or do not achieve the objective of financial statements in IAS 1 <i>Presentation of Financial Statements</i> or in the Exposure Draft; b) including management performance measures in the financial statements would increase the costs of preparing financial statements; or c) it may be challenging to audit such measures. 	<p>Including management performance measures in the financial statements</p> <p><i>Confirmed proposals</i></p> <p>C55. The IASB tentatively confirmed to require an entity to include information about management performance measures in the financial statements.</p> <p>Scope of management performance measures</p> <p><i>Confirmed proposals</i></p> <p>C56. The IASB tentatively confirmed not to further explore expanding the scope of management performance measures to include:</p> <ul style="list-style-type: none"> a) measures based on line items presented in the statements of financial performance; b) measures based on the cash flow statement; c) measures based on the statement of financial position; and ratios. <p><i>Changes to the proposals</i></p> <p>C57. The IASB tentatively decided to include in the scope of its requirements for management performance measures the numerator or denominator of a ratio, if that numerator or</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>performance measures</p> <p>September 2021</p> <p>AP21A Management performance measure and the scope of public communications</p> <p>AP21B Management performance measures—other aspects of definition</p>	<p>to comply with the general requirements in IFRS Accounting Standards for information included in financial statements. For example, each management performance measure must faithfully represent an aspect of the financial performance of the entity and be described in a clear and understandable manner that does not mislead users.</p> <p>A25. However, the Exposure Draft did not propose additional restrictions on management performance measures, such as only allowing an entity’s management to provide measures based on amounts recognised and measured in accordance with IFRS Accounting Standards.</p>	<p>B30. A few respondents disagreed with including management performance measures in the financial statements because many of these measures are subjective.</p>	<p>denominator meets the definition of a management performance measure.</p>
<p>October 2021</p> <p>AP21D Operating profit or loss before depreciation and amortisation</p>	<p>Definition of management performance measures</p> <p>A26. The Exposure Draft defined management performance measures as subtotals of income and expenses that:</p> <ul style="list-style-type: none"> a) are used in public communications outside financial statements; b) complement totals or subtotals specified by IFRS Accounting Standards; and c) communicate to users of financial statements management’s view of an aspect of an entity’s financial performance. 	<p>Definition of management performance measures</p> <p>B31. However, most respondents, including users, that agreed with requiring management performance measures in the financial statements, raised concerns about the definition of management performance measures. The two most significant concerns of respondents were:</p> <ul style="list-style-type: none"> a) requiring disclosure of all management performance measures used in ‘public communications’ is too wide in scope. Most respondents that raised this concern requested additional guidance or suggested a narrower definition of public communications. 	<p>Definition of management performance measures</p> <p><i>Confirmed proposals</i></p> <p>C58. The IASB tentatively confirmed to retain:</p> <ul style="list-style-type: none"> a) ‘providing management’s view of an aspect of an entity’s financial performance’ as the objective of management performance measures; and b) ‘communicate to users of financial statements management’s view of an aspect of an entity’s financial performance’ in the definition of management performance measures. <p><i>Changes to the proposals</i></p> <p>C59. The IASB tentatively decided to amend the definition of management performance measures:</p>

Topic and ref	Summary of proposals	Summary of feedback	Tentative decisions
<p>November 2021</p> <p>AP21A Management performance measures- management's view of an aspect of performance</p> <p>AP21B Management performance measures and the scope of public communications</p> <p>AP21C Management performance measures- faithful representation</p> <p>January 2022</p> <p>AP21A Management performance</p>	<p>Disclosure requirements</p> <p>A27. The Exposure Draft proposed that an entity would be required to disclose specific information about management performance measures, including:</p> <p>a) a description of why the management performance measure communicates management's view of performance;</p>	<p>b) management performance measures do not include measures that would, in their view, equally benefit from being disclosed in the financial statements. Most respondents that raised this concern suggested revising the definition to include other measures such as those based on items presented in the statement of financial position or the statement of cash flows. Many of these respondents said that in their opinion the full benefits of the proposals would not be realised without including these additional measures. However, some respondents, including some users, said the proposals had significant benefits, even if they did not include additional measures.</p> <p>Disclosure requirements</p> <p>B32. Most respondents agreed with the majority of the IASB's proposed disclosure requirements. Many respondents, including all users, said the requirement to reconcile management performance measures to the most directly comparable subtotal specified in IFRS Accounting Standards would increase the transparency and usefulness of information about these measures. Some respondents, particularly users, said the disclosure requirements that would</p>	<p>a) to remove the reference to complementing totals or subtotals specified by IFRS Accounting Standards; and</p> <p>b) to state that totals and subtotals specified by IFRS Accounting Standards are not management performance measures.</p> <p>C60. The IASB tentatively decided to establish a rebuttable presumption that a subtotal of income and expenses included in public communications outside financial statements represents management's view of an aspect of the entity's financial performance. In addition, the IASB tentatively decided to provide high-level application guidance on how to assess whether the entity has reasonable and supportable information to support the rebuttal.</p> <p>C61. The IASB tentatively decided to narrow the scope of public communications considered for the purposes of applying the definition of management performance measures, by excluding oral communications, transcripts and social media posts.</p> <p>C62. The IASB also tentatively decided to add application guidance, but remove the specific requirement about faithful representation.</p> <p>Disclosure requirements – usefulness and reconciliations</p> <p><i>Confirmed proposals</i></p> <p>C63. The IASB tentatively confirmed:</p> <p>a) to require an entity to disclose why a management performance measure communicates management's view of performance, subject to some drafting considerations relating to the terms 'why' and 'how', including an explanation of:</p> <p style="margin-left: 20px;">i) how the management performance measure is calculated; and</p>

<p>measures-Disclosures-Usefulness and reconciliations</p> <p>AP21B Management performance measures-Disclosure of tax and NCI</p> <p>March 2022</p> <p>AP21B Management performance measures-location and cross-referencing</p> <p>May 2022</p> <p>AP21A Management performance measures - disclosure of tax and NCI</p> <p>June 2022</p>	<p>b) a reconciliation to the most directly comparable total or subtotal specified by IFRS Accounting Standards;</p> <p>c) the income tax effect and the effect on non-controlling interests for each item disclosed in the reconciliation; and</p> <p>d) how the entity determined the income tax effect for each item disclosed in the reconciliation.</p> <p>A28. If an entity changed the calculation of its management performance measures, introduced a new management performance measure or removed a previously disclosed management performance measure the Exposure Draft proposed it would be required to:</p> <p>a) disclose sufficient explanation for users to understand the change, addition or removal and its effects;</p> <p>b) disclose the reasons for the change, addition or removal; and</p> <p>c) restate its comparative information, including in the required note disclosures, to reflect the change, addition or removal.</p> <p>A29. The Exposure Draft also proposed that an entity be prohibited from using columns to present management performance measures in the statement(s) of financial performance.</p>	<p>apply when a management performance measure is changed or removed would be particularly useful.</p> <p>B33. However, there was mixed feedback on the IASB’s proposal to require the disclosure of the tax and non-controlling interest effects of reconciling items between the management performance measure and the most directly comparable subtotals specified in IFRS Accounting Standards. While many users agreed with the disclosure requirements, some other respondents said that it would be costly to obtain the information, a more onerous disclosure requirement than the disclosures required for items in the statement of profit and loss, or contrary to management performance measures communicating a management view to require the information. It would be contrary to communicating a management view because information about tax and non-controlling interest effects is not always used by management.</p>	<p>ii) how the measure provides useful information about the entity’s performance; and</p> <p>b) to require an entity to disclose a reconciliation between a management performance measure and the most directly comparable subtotal or total specified in IFRS Accounting Standards.</p> <p><i>Changes to the proposals</i></p> <p>C64. The IASB tentatively decided:</p> <p>a) to provide additional application guidance to support the proposed requirement described in (C63(a)). The guidance would clarify that, where doing so would be necessary for a user of financial statements to understand why a management performance measure communicates management’s view of performance, the explanations described in (C63(a)(i)) and (C63(a)(ii)) would refer to the individual reconciling items.</p> <p>b) to require an entity to disclose, for each reconciling item, the amount(s) related to each line item(s) in the statement(s) of financial performance.</p> <p>Disclosure of tax and NCI</p> <p>C65. The IASB discussed feedback on the proposal to require an entity to disclose the effects of tax and non-controlling interests for individual items in the reconciliation between a management performance measure and the most directly comparable subtotal or total specified in IFRS Accounting Standards. The IASB asked for further information about entities that already disclose the tax effects of such reconciling items; in particular, how they calculate the tax effect.</p> <p><i>Confirmed proposals</i></p> <p>C66. The IASB tentatively confirmed the proposed requirement to disclose the income tax effect and the effect on non-controlling</p>

<p>AP21A Use of columns to present management performance measures and general requirements for additional line items and subtotals</p>	<p>A30. The proposed requirements are set out in paragraphs 103–110 of the Exposure Draft and paragraphs BC145–BC180 of the Basis for Conclusions on the Exposure Draft describe the IASB’s reasons for the proposals and discuss approaches that were considered but rejected by the IASB.</p>		<p>interests of each item disclosed in the reconciliation between a management performance measure and the most directly comparable subtotal or total specified by IFRS Accounting Standards.</p> <p><i>Changes to the proposals</i></p> <p>C67. The IASB tentatively decided:</p> <p>a) to revise the requirement specifying how to calculate the income tax effect to require an entity either to calculate:</p> <p style="padding-left: 40px;">iii) the tax effects of the underlying transaction(s) at the statutory tax rate(s) applicable to the transaction(s) in the relevant jurisdictions(s); or</p> <p style="padding-left: 40px;">iv) the tax effects described in (i) and then to allocate any other income tax effects related to the underlying transaction(s) based on a reasonable pro rata allocation of current and deferred tax, or on another method that achieves a more appropriate allocation.</p> <p>C68. The IASB noted that the tentative decision means the approach in C67(a)(i) is effectively a backstop, and asked the staff to consider whether there is an approach that maintains this backstop whilst allowing entities to use a wider range of approaches that would improve the balance between costs and benefits. The IASB will continue discussing this aspect of proposal at a future meeting.</p> <p>Location and cross-referencing</p> <p><i>Confirmed proposals</i></p> <p>C69. The IASB tentatively confirmed:</p> <p>a) the proposed requirement to disclose information about management performance measures in a single note to the financial statements; and</p>

			<p>b) not to add any requirements relating to an entity including disclosures about management performance measures in the financial statements by reference to another document.</p> <p>Use of columns</p> <p><i>Changes to the proposals</i></p> <p>C70. The IASB tentatively decided:</p> <p>a) to add a requirement, based on the discussion in paragraphs BC31 and BC165 of the Basis for Conclusions on the Exposure Draft, for additional subtotals and line items presented in the statement(s) of financial performance to fit into the structure of the categories required in the Accounting Standard.</p> <p>b) to withdraw the proposal to specifically prohibit the use of columns for presenting management performance measures in the statement(s) of financial performance.</p> <p>C71. The IASB will discuss other aspects of proposals at a future meeting.</p>
	<p>Operating profit or loss before depreciation and amortisation</p> <p>A31. The Exposure Draft did not propose defining EBITDA. However, the IASB proposed to exempt from the disclosure requirements for management performance measures a subtotal calculated as operating profit or loss before depreciation and amortisation. The IASB considered, but rejected, describing the subtotal operating profit or loss before depreciation and amortisation as EBITDA.</p>	<p>Operating profit or loss before depreciation and amortisation</p> <p>B34. Most respondents, including most users, agreed with the IASB’s proposal not to define earnings before interest, tax, depreciation and amortisation (EBITDA). These respondents said they agreed that there was no consensus on what EBITDA represents, that its use varies widely and that it is not applicable to some industries.</p> <p>B35. Some respondents, including some users, disagreed saying the IASB should define</p>	<p>Operating profit or loss before depreciation, amortisation, and specified impairments</p> <p><i>Changes to the proposals</i></p> <p>C72. The IASB tentatively decided:</p> <p>a) to specify an operating profit or loss before depreciation and amortisation subtotal that excludes impairments of assets within the scope of IAS 36 <i>Impairment of Assets</i>;</p> <p>b) to do this by amending the specified subtotal ‘operating profit or loss before depreciation and amortisation’, rather than adding an additional subtotal to the list of specified subtotals;</p>
