This Profile provides information about the application of IFRS® Accounting Standards (Standards) in Venezuela. The Standards are developed and issued in the public interest by the International Accounting Standards Board (IASB). The IASB is the standard-setting body of the IFRS Foundation (Foundation), an independent, private sector, not-for-profit organisation.

The Foundation has prepared this Profile based on information from various sources. The starting point was the answers provided by standard-setting and other bodies in response to surveys the Foundation conducted on the application of the Standards around the world. The Foundation drafted the profile and invited the respondents to the survey. The Foundation also invited others (including regulators and international audit firms) to review the drafts. Their comments are reflected in this Profile.

The purpose of the Foundation’s Jurisdictional Profiles is to illustrate only the extent of implementation of the Standards across the globe. The Profiles do not reflect the intellectual property licensing status of the Standards within any given jurisdiction. The Standards are protected by copyright and are subject to licensing arrangements agreed upon within their jurisdiction.
